Compulsory.

17. Case Study

There was a chemical accident in the Urea Plant at M/s. Mangalore Chemicals and Fertilizers Limited, Panambur, Mangalore on 9.2.2000. An 8" dia high-pressure pipeline housing a weldolet was connected between autoclave (urea reactor) of 108MT capacity and the stripper to carry ammonium carbamate (Urea Solution). The pressure of pipe line was of the order of 141 kg/cm² and the temperature of 180 C. The Solution had contained 29% of ammonia, 18% carbon dioxide and 32% of urea.

On 9th February 2000, a substantial quantity of ammonium carbamate solution leakage was noticed at the weldolet joint of the pipelino. A maintenance manager along with two operators, an engineer and two contract workmen were trying to plug the leakage by providing a proper clamping. In the process, the weldolet joint gave way resulting in sudden release of pressurized hot ammonium carbamate solution. As a result, the personnel on the job were exposed to hot solution and toxic gas. Consequent to which, 8 persons were affected amongst them 2 died on the spot and the other two at the hospital amounting to death of 4 persons including the maintenance manager and an engineer.
hardening and the last discussion had ended as a war of words. You do not want to damage the good relations between the two communities built over the years, but still have to solve the problems. What will you do?

Questions:

(a) Give all the possible solutions available for the case along with advantages and disadvantages for each solution.

(b) Compare the solutions and justify the best solution.

(c) Give suitable title for the case.

17. Case study
You Mr. A of Alfa Community, are a newly appointed manager of a workshop, which has been categorized as an essential service. This means that they must function on all the days. Rules lay down that, at least, two individuals must be on duty irrespective of their seniority or specialization. The workshop is manned by an equal number of individuals of the two communities. Alfa and Beta. A good tradition has been built, i.e., when one community has a festival, the workers from the other community man the workshop and vice versa.

Recently, there were labour union election and Mr. Beta community has been elected as the leader. The new leader is reported to be very whimsical (unusual), though very good at heart. Your day of trail dawned when it came to light that on Friday next, both the communities claim to be their religious day. Both the communities want the other community to perform the duty on that day. While Alfa community is banking on you; the others are equally sure of their union leader from beta community winning the day for them. You realize that there have been a lot of discussion as and more negotiations are making the situation worse. The attitude of the both parties are
not many in the Palm Beach Resorts Management thought that she could take up hardcore marketing assignments. Happy was unhappy. She felt stifled. Her stagnation in position was making her feel truncated. She decided to go independent. Over the years, being single, she had gathered enough money. Moreover, her father was a successful businessman and would love to fund any of his only daughter’s ventures. Also being in guest relations, Happy herself knew a lot of influential people. On the other hand, Happy Sequira was now 30. She had to seriously contemplate marriage due to parental pressures. Her rise at Palm Beach Resorts was meteoric, which implied that she was not used to serious failure. Besides Happy wondered what kind of a start-up could she design to suit her needs?

(a) Should Happy Sequira go independent?
(b) Should Happy follow her heart (F&B) or head (Guest relations)?
(c) If Happy decides to take up Guest relations what kind of a start-up do you suggest?
(d) If Happy decides to take up F&B what kind of a start-up do you suggest?

16. What are the barriers of social youth entrepreneurship? What is their role in education?

PART C — (1 × 20 = 20 marks)

17. Case Study:

Happy Seqiura was only 21 when she joined Palm Beach Resorts as a food and beverages (F&B) helper. She had just graduated form one of the premium catering colleges in the city. She was young, energetic and possessed a pleasant disposition. Due to her experimenting nature she was not very successful with her F&B. However, when one of her managers tried her out in guest relations, she was an instant hit. From then on there was no looking back for her. She soon rose to the position of a Banquets Manager. Even as a Banquets Manager she loved the Kitchen section. She felt like cooking. Many a times she went to the Kitchen of one of the Palm Beach Resort Restaurants and experimented. Many a times she was successful, or this is whether Kitchen staff often told her. She was enjoying every bit her life. Unfortunately for her this was to be her glass ceiling. Due to a catering educational background

16. Write any two successful stories of Indian entrepreneurs in service sector.

PART C — (1 x 20 = 20 marks)
(Compulsory)

17. Case study:

An Entrepreneurial Success Story

In 2002, with a turnover of Rs. 3 billion, exports worth Rs. 100 million, 62 branches and 40 divisions all over the country, and 42000 members, the Sri Mahila Griha Udyog Lijjat Papad (SMGULP) was a women's entrepreneurial success story in India.

From humble beginnings in a thickly populated locality of Mumbai in 1959, SMGULP has come a long way. The organization gained recognition through its most famous product-Lijjat papad. In addition to papads, SMGULP manufactured other household products like spices, bakery products and detergents. A look at any of the
branches of SMGULP gives the feel of an efficient entrepreneurial set up. The key to SMGULP's success lies in the feeling of oneness that it creates. Women above 18 years of age can become members of SMGULP by signing a pledge of devotion to the organization. At SMGULP, workers are referred to as co-owners and the women who work there are referred to as sisters.

No kind of work is considered inferior or superior at SMGULP. Every job is given equal importance and the member sisters are free to choose the work they like, rolling papads, or packing, or preparing the dough. Payment is made on a daily basis. Quality is given utmost importance. The supervisors constantly check for the quality and weight of papads. SMGULP inculcates in its members, “a commitment to earn a legitimate income, honesty, and not snatching the fruits of another person's income” and adherence to quality. Stringent rules of cleanliness and purity are maintained. The whole manufacturing process is open to inspection by anybody. A well laid formula is strictly followed to obtain products of a fixed standard of taste, color and size. Over the years, SMGULP has won several awards. The organization was awarded for its outstanding contribution to the uplift and welfare of socially, economically and physically handicapped women. In 2002, The Economic Times Award for Women Entrepreneur of the year was awarded to Jyoti Naik, President, SMGULP.

The Success Formula:

The vision and principles of SMGULP are based on the ideals of trusteeship. The basic principles underlying the philosophy of the organization are:

- SMGULP is a voluntary organization.
- SMGULP never accepts charity or grants.
- SMGULP believes in running the business wisely.
- SMGULP is like a family and the sisters run it as if they all belonged to the same family.
- SMGULP is like a revered place of worship.
- SMGULP is a combination of three concepts, the business concept, the family concept and the devotion concept.

Case questions:

(a) Sketch-out a SWOT framework for Lijjat papad business prospects.
