8.1. **Migration**

8.2. **Pattern of Theory Question Papers**
CHAPTER - I
AIMS AND OBJECTIVES

The Bachelor of Ayurveda education shall aim at producing graduates, having profound knowledge of Ashtanga Ayurveda supplemented with knowledge of scientific advances in modern medicine along with extensive practical training so as to become efficient physicians and surgeons fully competent to serve the health care services.

Degree to be awarded:

The candidate shall be awarded Ayurvedacharya (Bachelor of Ayurvedic Medicine and Surgery- B.A.M.S.) degree after passing all the examinations and completion of the prescribed course of study extending over the prescribed period and the compulsory rotatory internship extending over twelve months.

Medium of instruction:

The medium of instruction for the course shall be Sanskrit or English.
CHAPTER - II
ADMISSION QUALIFICATIONS

Qualifying Examination

The eligibility to seek admission in Bachelor of Ayurveda education is as under-

12th standard with science or any other equivalent examination recognised by concerned State Governments and Education Boards with at least 50% (fifty percent) aggregate marks in the subjects of Physics, Chemistry and Biology.

For reserved category or special category like physically handicapped students in 10+2, they shall be given relaxation in marks for admission in Bachelor of Ayurvedic Medicine and Surgery as per rules for time being in force.

For foreign students any other equivalent qualification to be approved by the concerned authority may be allowed.

Age:

The candidate should have completed 17 years on or before 31st day of December of the year of admission.
CHAPTER - III
DURATION OF COURSE

The duration of the course shall be 5½ years (*five years and six months*) comprising-

CHAPTER - IV

EXAMINATION, ATTENDANCE AND RESULTS

The First Profession

The first professional session shall ordinarily start in July and the first professional examination shall be at the end of one academic year of first professional session;

The first professional examination shall be held in the following subjects, namely-

1. *Padarth Vigyan evam Ayurved Itihas*
2. *Sanskrit*
3. *Kriya Sharir (Physiology)*
4. *Rachana Sharir (Anatomy) and*
5. *Maulik Siddhant evam Ashtanga Hridaya* (Sutra Sthan)

*NOTE:* The failed student of first Professional shall be allowed to appear in second professional examination, but the student shall not be allowed to appear in third professional examination unless the student passes all the subjects of first professional examination and maximum four chances shall be given to pass first professional examination within a period of maximum three years.
PADARTHA VIGYAN EVUM AYURVEDA ITIHAS

(Philosophy and History of Ayurveda)
PADARtha Vigyan Evum Ayurveda Itihas

(Philosophy and History of Ayurveda)

Theory- Two papers– 200 marks (100 each paper)

Total teaching hours: 100 hours

Ayurveda Nirupana

Lakshana of Ayu, composition of Ayu, Lakshana of Ayurveda, Lakshana and classification of Siddhanta, Introduction to basic principles of Ayurveda and their significance.

Ayurveda Darshana Nirupana

Philosophical background of fundamentals of Ayurveda, Etymological derivation of the word “Darshana”. Classification and general introduction to schools of Indian Philosophy with an emphasis on: Nyaya, Vaisheshika, Sankhya and Yoga, Ayurveda as unique and independent school of thought (philosophical individuality of Ayurveda), Padartha: Lakshana, enumeration and classification, Bhava and Abhava padartha, Padartha according to Charaka (Karana-Padartha).

Dravya Vigyaniyam

Dravya:

Lakshana, classification and enumeration.

Panchabhuta:

Various theories regarding the creation (theories of Taittiriyopanishad, Nyaya-Vaisheshika, Sankhya-Yoga, Sankaracharya, Charaka and Susruta), Lakshana and qualities of each Bhoota.
Kaala:

Etymological derivation, Lakshana and division / units, significance in Ayurveda.

Dik:

Lakshana and division, significance in Ayurveda.

Atma:

Lakshana, classification, seat, Gunas, Linga according to Charaka, the method / process of knowledge formation (atmanah jnasya pravittih).

Purusha:

As mentioned in Ayurveda - Ativahikapurusha/ Sukshmarsharira/ Rashipurusha/ Chikitsapurusha/ Karmapurusha/ Shaddhatvatmakapurusha.

Manas:

Lakshana, synonyms, qualities, objects, functions, dual nature of mind (ubhayaatmakatvam), as a substratum of diseases, penta-elemental nature (panchabhutatmakatvam). Role of Panchamahabhuta and Triguna in Dehaprakriti and Manasaprakriti respectively. Tamas as the tenth Dravya, Practical study/application in Ayurveda.

PART B 50 marks

4. Gunavigyaniyam

Etymological derivation, classification and enumeration according to Nyaya Vaisheshika and Charaka, Artha, Gurvadiguna, Paradiguna, Adhyatmaguna. Lakshana and classification of all the 41 gunas, Practical / clinical application in Ayurveda.
5. Karma Vigyaniyam

Lakshana, classification in Nyaya, Description according to Ayurveda, Practical study/application in Ayurveda.

Samanya Vigyaniyam

Lakshana, classification, Practical study/application with reference to Dravya, Guna and Karma.

Vishesha Vigyaniyam

Lakshana, classification, Practical study/application with reference to Dravya, Guna and Karma. Significance of the statement “Pravrittirubhayasya tu”.

Samavaya Vigyaniyam

Lakshana, Practical study/clinical application in Ayurveda.

Abhava Vigyaniyam

Lakshana, classification, Clinical significances in Ayurveda.

PAPER II

<table>
<thead>
<tr>
<th>Padartha Vigyan and Ayurveda Itihas</th>
<th>100 marks</th>
</tr>
</thead>
<tbody>
<tr>
<td>PART A -</td>
<td>Pramana/ Pariksha- Vigyaniyam</td>
</tr>
</tbody>
</table>

Pariksha

Definition, significance, necessity and use of Pariksha, Definition of Prama, Prameya, Pramata, Pramana, Significance and importance of Pramana, Enumeration of Pramana according to different schools of philosophy, Four types of methods for examination in Ayurveda (Chaturvidha-Parikshavidhi), Pramana in Ayurveda, Subsudation of different Pramanas under three Pramanas, Practical application of methods of examination (Parikshavidhi) in treatment (Chikitsa).
Aptopdesha Pariksha/ Pramana

Pratyaksha Pariksha/ Pramana

Lakshana of Pratyaksha, types of Pratyaksha- Nirvikalpaka, Savikalpaka with description, description of Laukika and Alaukika types and their further classification. Indriya-prapayakaritvam, six types of Sannikarsha. Indriyanam lakshanam, classification and enumeration of Indriya. Description of Panchapanchaka, Penta-elemental nature of Indriya by Panchamahabhuta (Panchabhautikatwa of Indriya) and similarity in sources (Tulyayonitva) of Indriya. Trayodasha Karana, dominance of Antahkaran. Hindrances in direct perception (pratyaksha-anupalabdhikaarana), enhancement of direct perception (Pratyaksha) by various instruments/ equipments, necessity of other Pramanas in addition to Pratyaksha. Practical study/ application of Pratyaksha in physiological, diagnostic, therapeutics and research grounds.

Anumanapariksha/Pramana

Yuktipariksha/ Pramana

Lakshana and discussion. Importance in Ayurveda. Practical study and utility in therapeutics and research.
Upamana Pramana

Lakshana, Application in therapeutics and research.

Karya- Karana Siddhanta (Cause and Effect Theory)

PART B - 25 marks

Ayurved Itihas

Etymological derivation (Vyutpatti), syntactical derivation (Niruktti) and definition of the word Itihas, necessity of knowledge of history, its significance and utility, means and method of history, historical person (Vyakti), subject (Vishaya), time period (Kaal), happening (Ghatana) and their impact on Ayurveda.

Introduction to the authors of classical texts during Samhitakaal and their contribution

Atreya, Dhanwantari, Kashyapa, Agnivesha, Sushruta, Bhela, Harita, Charaka, Dridhabala, Vagbhata, Nagarjuna, Jivaka.

Introduction to the commentators of classical Samhitas

Bhattarahriconchandra, Jejjata, Chakrapani, Dalhana, Nishchalakara, Vijayarakshita, Gayadas, Arunadutta, Hemadri, Gangadhara, Yogindranath Sen, Haranachandra, Indu.

Introduction to the authors of compendiums (Granthisamgrahakaala)

Bhavnishra, Sharngadhar, Vrinda, Madhavakara, Shodhala, Govinda Das (Author of Bhaishajyaratnawali), Basavraja.
Introduction to the authors of Modern era

Gana Nath Sen, Yamini Bhushan Rai, Shankar Dajishastri Pade, Swami Lakshmiram, Yadavji Tikramji, Dr. P. M. Mehta, Ghanekar, Damodar Sharma Gaur, Priyavrat Sharma.

Globalization of Ayurveda

Expansion of Ayurveda in Misra (Egypt), Sri Lanka, Nepal other nations.

Developmental activities in Ayurveda in the post-independence period, development in educational trends, Establishment of different committees, their recommendations.

Introduction to and activities of the following Organizations :- Department of AYUSH, Central Council of Indian Medicine, Central Council for Research in Ayurvedic Sciences, Ayurvedic Pharmacopeia commission, National Medicinal Plants Board, Traditional Knowledge Digital Library (TKDL)

Introduction to the following National Institutions :

a) National Institute of Ayurved, Jaipur.
b) IPGT&RA, Gujrat Ayurved University, Jamnagar.
c) Faculty of Ayurved, BHU, Varanasi.
d) Rashtriya Ayurveda Vidyapeetha, New Delhi.

Introduction to national & international popular journals of Ayurveda, Introduction to activities of WHO in the promotion of Ayurved.

KRIYA SHARIR

(PHYSIOLOGY)
KRIYA SHARIR (PHYSIOLOGY)

Theory-Two Papers-200 Marks (100 marks each)
Teaching hours-200 hours (Theory), 200 hours (practicals)

PAPER-I

PART A 50 marks

Conceptual study of fundamental principles of Ayurvediya Kriya Sharir

Panchamahabhuta, Tridosha, Triguna, Loka-Purusha Samya, Samanya-Vishesha. Description of basics of Srotas.

Definition and synonyms of the term Sharir, definition and synonyms of term Kriya, description of Sharir Dosha and Manasa Dosha. Mutual relationship between Triguna-Tridosha & Panchmahabhuta. Difference between Shaarir and Sharir. Description of the components of Purusha and classification of Purusha, role of Shatdhatupurusha in Kriya Sharira and Chikitsa.

Dosha

General description of Tridosha. Inter relationship between Ritu-Dosha-Rasa-Guna. Biological rhythms of Tridosha on the basis of day-night-age-season and food intake. Role of Dosha in the formation of Prakriti of an individual and in maintaining of health. Prakrita and Vaikrita Dosha.

Vata Dosha:

Vyutpatti (derivation), Nirukti (etymology) of the term Vata, general locations, general properties and general functions of Vata, five types of Vata (Prana, Udana, Samana, Vyana, Apana) with their specific locations, specific properties, and specific functions. Respiratory Physiology in Ayurveda, Physiology of speech in Ayurveda.
Pitta Dosha

Vyutpatti, Nirukti of the term Pitta, general locations, general properties and general functions of Pitta, five types of Pitta (Pachaka, Ranjaka, Alochaka, Bhrajaka, Sadhaka) with their specific locations, specific properties, and specific functions. Similarities and differences between Agni and Pitta.

Kapha Dosha

Vyutpatti, Nirukti of the term Kapha, general locations, general properties and general functions of Kapha, five types of Kapha (Bodhaka, Avalambaka, Kledaka, Tarpaka, Śleshaka) with their specific locations, specific properties, and specific functions.

Etiological factors responsible for Dosha Vriddhi, Dosha Kshaya and their manifestations.

Concept of Kriyakala.

Prakriti

Deha-Bhakriti

Vyutpatti, Nirukti, various definitions and synonyms for the term “Prakriti”. Intra-uterine and extra-uterine factors influencing Deha-Bhakriti, classification and characteristic features of each kind of Deha-Bhakriti.

Manasa-Bhakriti

Introduction and types of Manasa-Bhakriti.

Ahara

Aharpaka (Process of digestion): Description of Annavaha Srotas and their Mula. Role of
Grahani & Pittadhara Kala.

Description of Avasthapaka (Madhura, Amla and Katu). Description of Nishthapaka (Vipaka) and its classification. Separation of Sara and Kitta. Absorption of Sara. Genesis of Vata-Pitta-Kapha during Aharapaka process. Definition of the term Koshtha. Classification of Koshtha and the characteristics of each type of Koshtha.

Agni

Definition and importance, synonyms, classification, location, properties and functions of Agni and functions of Jatharagni, Bhutagni, and Dhatvagni.

PART- B Modern Physiology 50 marks

Physiology of respiratory system:

functional anatomy of respiratory system. Definition of ventilation, mechanism of respiration, exchange and transport of gases, neural and chemical control of respiration, artificial respiration, asphyxia, hypoxia. Introduction to Pulmonary Function Tests.

Physiology of Nervous System:

General introduction to nervous system, neurons, mechanism of propagation of nerve impulse, physiology of CNS, PNS, ANS; physiology of sensory and motor nervous system, Functions of different parts of brain and physiology of special senses, intelligence, memory, learning and motivation. Physiology of sleep and dreams, EEG. Physiology of speech and articulation. Physiology of temperature regulation.

Functional anatomy of gastro-intestinal tract, mechanism of secretion and composition of different digestive juices. Functions of salivary glands, stomach, liver, pancreas, small
intestine and large intestine in the process of digestion and absorption. Movements of the gut (deglutition, peristalsis, defecation) and their control. Enteric nervous system.

Acid-base balance, water and electrolyte balance. Study of basic components of food. Digestion and metabolism of proteins, fats and carbohydrates.

Vitamins & Minerals- sources, daily requirement, functions, manifestations of hypo and hypervitaminosis.

PAPER-II 

PART A 

Dhatu:

Etymology, derivation, definition, general introduction of term Dhatu, different theories related to Dhatuposhana (Dhatuposhana Nyaya)

Rasa Dhatu:

Etymology, derivation, location, properties, functions and Praman of Rasa-dhatu. Physiology of Rasavaha Srotas, Formation of Rasa Dhatu from Aahara Rasa, circulation of Rasa (Rasa-Samvahana), role of Vyana Vayu and Samana Vayu in Rasa Samvahana. Description of functioning of Hridaya. Ashtavidha Sara (8 types of Sara), characteristics of Tvakasara Purusha, conceptual study of mutual interdependence (Aashraya-Aashrayi Bhaava) and its relation to Rasa and Kapha. Manifestations of kshaya and Vriddhi of Rasa.

Rakta Dhatu:

Etymology, derivation, synonyms, location, properties, functions and Praman of Rakta Dhatu. Panchabhautikatva of Rakta Dhatu, physiology of Raktavaha Srotas, formation of Raktadhatu, Ranjana of Rasa by Ranjaka Pitta, features of Shuddha Rakta, specific functions of Rakta, characteristics of Raktasara Purusha, manifestations of Kshaya and Vriddhi of Raktadhatu, mutual interdependence of Rakta and Pitta.

21
Mamsa Dhatu:
Etymology, derivation, synonyms, location, properties and functions of Mamsa Dhatu, physiology of Mamsavaha Srotasa, formation of Mamsa Dhatu, characteristics of Mamsasara Purusha, manifestations of Kshaya and Vriddhi of Mamsa Dhatu. Concept of Peshi.

Meda Dhatu:
Etymology, derivation, location, properties, functions and Praman of Meda Dhatu, physiology of Medovaha Srotas, formation of Medo Dhatu, characteristics of Medasara Purusha and manifestations of Kshaya and Vriddhi of Meda.

Asthi Dhatu:
Etymology, derivation, synonyms, location, properties, functions of Asthi Dhatu. Number of Asthi. Physiology of Asthivaha Srotas and formation of Asthi Dhatu, characteristics of Asthisara Purusha, mutual interdependence of Vata and Asthi Dhatu, manifestations of Kshaya and Vriddhi of Asthi Dhatu.

Majja Dhatu:
Etymology derivation types, location, properties, functions and pramana of Majja Dhatu, physiology of Majjavaha Srotas, formation of Majja Dhatu, characteristics of Majja Sara Purusha, relation of Kapha, Pitta, Rakta and Majja, manifestations of Kshaya and Vriddhi of Majja Dhatu.

Shukra Dhatu:
Etymology, derivation, location, properties, functions and Praman of Shukra Dhatu, physiology of Shukraravaha Srotas and formation of Shukra Dhatu. Features of Shuddha Shukra, characteristics of Shukra-Sara Purusha, manifestations of Kshaya and Vriddhi of Shukra Dhatu.

Concept of Ashraya-Ashrayi bhava i.e. inter-relationship among Dosha, Dhatu Mala and Srotas.
Ojas:

Upadhatu:

General introduction, etymological derivation and definition of the term Upadhatu. Formation, nourishment, properties, location and functions of each Upadhatu.

Stanya:

Characteristic features and methods of assessing Shuddha and Dushita Stanya, manifestations of Vriddhi and Kshaya of Stanya.

Artava

Characteristic features of Shuddha and Dushita Artava. Differences between Raja and Artava, physiology of Artavavaha Srotas.

Tvak

classification, thickness of each layer and functions.

Mala

Etymological derivation and definition of the term Mala. Aharamala: Enumeration and description of the process of formation of Aharamala.

Purisha

Etymological derivation, definition, formation, properties, quantity and functions of Purisha. Physiology of Purishavaha Srotas, manifestations of Vriddhi and Kshaya of Purisha.
Mutra
Etymological derivation, definition, formation, properties, quantity and functions of Mutra. Physiology of Mutravaha Srotas, physiology of urine formation in Ayurveda, manifestations of Vriddhi and Kshhaya of Mutra.

Sveda
Etymological derivation, definition, formation and functions of Sveda. Manifestations of Vriddhi and Kshhaya of Sveda. Discription of Svedvaha Srotas

Dhatumala
Brief description of each type of Dhatumala.

Panchagyanendriya
Physiological description of Panchagyaanendriya and physiology of perception of Shabda, Sparsha, Rupa, Rasa and Gandha. Physiological description of Karmendriya.

Manas
Etymological derivation, definition, synonyms, location, properties, functions and objects of Manas. Physiology of Manovaha Srotas.

Atma
Etymological derivation, definition, properties of Atma. Difference between Paramatma and Jivatma; Characteristic features of existence of Atma in living body.

Nidra
Nidrotpatti, types of Nidra, physiological and clinical significance of Nidra; S vapnotpatti and types of Svapna.
Modern Physiology

Haemopoetic system

composition, functions of blood and blood cells, Haemopoiesis (stages and development of RBCs, and WBCs and platelets), composition and functions of bone marrow, structure, types and functions of haemoglobin, mechanism of blood clotting, anticoagulants, physiological basis of blood groups, plasma proteins, introduction to anaemia and jaundice.

Immunity

classification of immunity: Innate, acquired and artificial. Different mechanisms involved in immunity: Humoral (B-cell mediated) and T-Cell mediated immunity. Hypersensitivity.

Muscle physiology

Comparison of physiology of skeletal muscles, cardiac muscles and smooth muscles. Physiology of muscle contraction.

Physiology of cardio-vascular system

Adipose tissue, lipoproteins like VLDL, LDL and HDL triglycerides.

Functions of skin, sweat glands and sebaceous glands.

Physiology of male and female reproductive systems. Description of ovulation, spermatogenesis, oogenesis, menstrual cycle.
Physiology of Excretion

Endocrine glands

General introduction to endocrine system, classification and characteristics of hormones, physiology of all endocrine glands, their functions and their effects.

PRACTICAL

100 marks

Teaching hours-200

Ayurvedic practical

1. Assessment of Prakriti
2. Assessment of Dosha (Features of Vridhhi- Kshaya )
3. Assessment of Dhatu (Features of Vridhhi- Kshaya)
4. Assessment of Agni
5. Assessment of Koshtha
6. Assessment of Sara
7. Nadi pariksha

Modern physiology practical

Introduction to laboratory instruments- Simple & Compound Microscope, Scalp vein set, bulbs for blood collection, Sahli”s Haemometer, Haemocytometer, pipettes, Urinometer, Albuminometer, Stethoscope, B.P. Apparatus, Harpenden”s caliper, Clinical Hammer, Tuning Fork, Stop Watch, Thermometer, Centrifuge machine, ECG Machine

Collection of blood sample

prick, vene-puncture method, use of anticoagulants
Preparation of blood smear and staining

Estimation of Hemoglobin

Microscopic examination of blood

a. Total RBC count
b. Total WBC count
c. Differential leucocyte count

Packed cell volume (PCV) demonstration

ESR demonstration

Bleeding time, Clotting time

Blood grouping and Rh typing

Examination of Cardio-Vascular system

a) Pulse examination
b) Arterial blood pressure measurement
c) Examination of heart sounds
d) ECG demonstration

Examination of Respiratory system

a) Respiratory rate
b) Breath sounds
c) Spirometry

Examination of Nervous System- Sensory & Motor.

Urine examination
a. Physical examination,
b. chemical examination.
c. Test for normal constituents of urine.
d. Detection of specific gravity and reaction of urine.

RACHANA SHARIR
(ANATOMY)
RACHANA SHARIR

(ANATOMY)

Theory-Two Papers-200 Marks (100 marks each)
Teaching hours-300 hours (theory), 200 hours (practicals)

PAPER-I 100 marks

PART A 50 marks

Shariropkramaniya Shaarira

Sharira and shaarira vyakhya (definitions of sharira and shaarira), shadangatvam (six regions of the body), anga pratyanga vibhaga (sub divisions). Mrita sharir samshodhan. Shaarira shastra vibhaga, shaarira gyan prayojana . Constitution of purusha according to dhatubheda, panchabhautikatvam, trigunatmakatvam, tridoshamayatvam, karma purusha, and doshadhatumala-mulakatvam.

Paribhasha Shaarira

Kurcha, kandara, jala, asthisanghat, seemanta, seevani, rajju, snayu and lasika.

Garbha Shaarira

Pramana Shaarira:

Anguli praman.
Asthi Shaarira

Asthi vyakhya, number, types, asthi swaroopa, vasa, meda and majja.

Sandhi Shaarira

Sandhi vyakhya, numbers, types of asthi sandhi.

Sira, Dhamani, Srotas Shaarira

a) Definition, types and number of sira and dhamani.
 b) Description of Hridaya.
 c) Sroto shaarira: Definition, types of srotas and srotomula.

Peshi Shaarira

a) Peshi vyakhya, structure, types, number and importance.
 b) Description of Peshi.

Koshtha Evam Ashaya Shaarira

a) Definition of kostha and number of koshthanga.
 b) Types and description of ashaya.

Kalaa Shaarira

Kalaa: definition and types.

Uttamangiya Shaarira

Shatchakra, ida, pingala and sushumna nadi - brief description.

Marma Shaarira

Marma: definition, number, location, classification, clinical importance with viddha lakshana. Explanation of trimarmas. Detail description of marmas.
**Indriya Shaarira**

Definition of indriya, indriya artha and indriya adhisthan, their number and importance. Description of gyanendria, karmendriya and ubhayendriya (manas).

**PART-B**

Definition and branches of anatomy. Preservation methods of the cadaver.

**Anatomical Terminologies**

Anatomical position, Planes, and explanation of anatomical terms related to skin, fasciae, bones, joints and their movements, muscles, ligaments, tendons, blood vessels, nerves,.

**Embryology**

**Osteology**

Bone: Definition, classification, structure and types. Description of bones with clinical anatomy.

**Arthrology**

Joints: Definition, structure types and movements. Description of joints of extremities, vertebral joints and temporomandibular joint with their clinical anatomy.

**Cardiovascular system**

a. Definition, types and structure of arteries and veins.
b. Description of heart and blood vessels with their course and branches.
c. Pericardium with applied aspect.
Lymphatic system

Definition, types and structure of lymph vessels, lymph glands with their clinical aspect.

Myology

a) Structure and types of muscles.
b) Description of muscles; their origin, insertion, actions, nerve supply and clinical anatomy.

**PAPER-II**

**PART A**

a) Bronchial tree and lungs with their clinical aspects.
b) Respiratory tract: nasal cavity, pharynx, larynx, trachea, bronchial tree.
c) Pleura with its clinical aspects.
d) Diaphragm.

Digestive system

a. Organs of digestive tract (alimentary tract) with their clinical aspects.
b. Digestive glands: liver, spleen and pancreas.
c. Description of peritoneum with its clinical aspects.

Urinary System

Urinary tract: kidney, ureter, urinary bladder and urethra with their clinical aspects.

Reproductive system

Male Reproductive system

Reproductive organs, tract and glands (prostate and seminal vesicles) with their clinical aspects.
Female reproductive system

a. Reproductive organs, tract and glands with their clinical aspects.

Endocrinology

Definition, classification & description of endocrine glands (pituitary, thyroid, parathyroid, thymus and suprarenal glands) with clinical aspects.

PART B

Nervous System

Nervous system: definition, classification and its importance. Description of brain and spinal cord. Description of peripheral nervous system: cranial and spinal nerves, nerve plexuses, and autonomic nervous system, formation and circulation of cerebrospinal fluid and blood supply of brain and spinal cord.

Sensory organs

Description of structures of eye, ear, nose, tongue and skin with their clinical aspects.

Surface and radiological anatomy

a) Study of radio-imaging of limbs, abdomen, pelvis and vertebral column with its clinical application.

b) Surface anatomy of thoracic and abdominal viscera.

PRACTICAL

Teaching hours: 200

Content of practical

1. Practical study of bones
2. Practical study of organs
3. Practical study of surface and radiological anatomy.
4. Shava vichhedana – detailed dissection of the whole body.
5. Practical study of location of marma
6. Demonstration of histology slides (10 slides)

**Distribution of marks**

1. Spotting – 20 marks
2. Dissected organs and histology slides 20 marks
3. Bones, joints, marma - 20 marks
4. Surface & radiological anatomy 10 marks
5. Practical records 10 marks
6. Viva-Voce - 20 marks

**Total** 100 marks

(Basic Principles and Ashtang Hridaya-
An ancient text of Ayurveda)
MAULIKA SIDDHANTA EVUM ASHTANGA HRIDAYA
(Basic Principles and Ashtang Hridaya- An ancient text of Ayurveda)

Theory- One Paper– 100 marks
Teaching Hours -150 hours
Practicals – 50 Marks

Part A 60 marks

a) Ashtang Hridaya Sutrasthana Adhyaya 1 to 15

Part B 40 marks

a) Ashtang Hridaya Sutrasthana Adhyaya 16 to 30
b) Description of Ashta Prakriti
c) Shastra Lakshan (Tantra), Tantraguna, Tantradosha, Tachitalya, Arthasraya, Kalpana

Ashtangahridaya Viva and Practical will be conducted for 50 marks. The distributions of Marks are as follows

a) Daily Records/Compilation – 10 Marks
b) Written test and Shloka recitation – 20 Marks
c) Viva voce / Oral examination – 20 Marks

SECOND PROFESSION
Second Profession

The second professional session shall start every year in the month of July following completion of first professional examination and the second professional examination shall be ordinarily held and completed by the end of month of May or June every year after completion of one year of second professional session;

The second professional examination shall be held in the following subjects, namely-

1. **Dravyaguna Vigyan** *(Pharmacology and Materia Medica)*
2. **Rasashastra evam Bhaishajya Kalpana** *(Pharmaceutical Science)*
3. **Roga Nidan evam Vikriti Vigyan** *(Diagnostic Procedure and Pathology)*
4. **Charak Samhita-Purvardh** *(An Ancient Ayurvedic Text, Part-I)*

**NOTE**: The failed student of second professional who have passed all the subjects of first professional examination shall be allowed to appear in third professional examination, but the student shall not be allowed to appear in final professional examination unless the student passes all the subjects of second professional examination and maximum four chances shall be given to pass second professional examination within a period of maximum three years.
DRAVYAGUNA VIJNAN

(PHARMACOLOGY & MATERIA MEDICA)
DRAVYAGUNA VIJNAN

(PHARMACOLOGY & MATERIA MEDICA)

Lectures: 200 Hrs.
Practicals: 200 Hrs.
Total Marks -400

Theory Two Papers– 100 Marks Each
Practical/Viva voce – 200 Marks

Paper I 100 Marks

Part A 50 Marks

Dravyaguna Shastra Paribhasa

Lakshana of Sapta Padartha of Dravyaguna Vijnana viz Dravya- Rasa-Guna- Virya- Vipaka Prabhava and Karma.

Dravya:

Etymological derivation, definition, panchbhoutikatwa, Classification of Dravya according to Samhitas and Nighantus Taxonomical classification.

Guna:

Etymological derivation, definition and Classification of Guna. Detailed knowledge of Gurvadi Guna & Paradi gunas.

Rasa:

Etymological derivation, definition, Meaning of “Rasa” in various contexts. Shad Rasas (Madhura, Amla, Lavana, Katu, Tikta, and Kashaya), Panchabhautik constitution of Rasas, Nirvrittiviseshakrama (manifestation in general and particular), Ritu and shad rasa Rasanurasayoh bheda (Difference between rasa and anurasa), Lakshana (characteristics), Guna
and Karma of shad Rasas, Kopana and Shamana of Dosha and dushya by Shad rasas. Effects of excess usage of Rasa. Rasopalabdhi, Rasaskandha.

Vipaka:

Etymological derivation and definition, difference between Avasthapaka and Vipaka, Types of Vipaka, (Dvividha-Trividha,Panchavidha) Guna and karma of Vipaka. Grades of Vipaka (taratamya), Vipakopalabdhi hetu (Factors to determine Vipaka).

Veerya:

Etymological derivation, definition and Swarupa of Virya, Number of Virya. (Dwividha & Ashtavidha), Panchabhauthikatva Virya karmani (Effects of Virya), General principles in determination of virya along with exceptions.

Prabhava:

Definition, Effects of Prabhava. Interrelation of Rasa-Guna-Virya-Vipaka-Prabhava with respect to their strength (balabal nirupana). Samanapratyayarabdha and Vicitrapratyayarabdha dravyas.

Karma:

Lakshana, swaroopa and bheda of karma (Definition, nature and types of action).

Explanation of the following Karmas with examples:

<p>| | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
</table>
Brief information on Karmas of dashemani gana of Charak Samhita.

Mishraka Gana:

Audbhida Gana

(Vegetable origin) Brihatpanchamoola, Laghupanchamoola, Vallipanchamoola, Kantakapanchamoola, Trinapanchamoola, Madhyamapanchamoola, Jeevaneeya panchamoola, Panchapallava, Panchavalakala, Triphala, Trikatu, Trimada, Chaturusana, Panchakola, Shadusana, Chaturbeea, Jeevaniya gana, Ashtavarga, Trijataka, Chaturajataka, Katuchaturjataka Panchatikta, Amlapanchaka, Chaturbhadra, Trikarshika, Swalpatiphal, Madhuratiphal, Mahavisha, Upavisha, Agrya aushadh varga- Knowledge of Agraya aushadhha Varga with example.

Jangama Gana (Animal origin):

Ksheerashtaka, Mutrashtaka, Pitta panchaka.

Parthiva Gana (Mineral origin) –

Lavana Panchaka, Kshara dvaya, Kshara Ashtaka.

Basis of nomenclature:

Basis of nomenclature of dravya, Basis and Derivation of synonyms.

Bheashaja Pariksha vidhi (as described in Charaka samhita vimana sthana 8), Dravya Sangrahana (collection of dravya)- Ecology- Classification of desha (geographical area) and bhumi (soil), swarupa of sangrahaniya dravya of (Nature and quality of drug to be collected). Sangrahana vidhi (Method of collection) -Vegetable and Animal origin drugs according to part used. Period of collection according to virya, samrakshanvidhi (preservation of collected dravyas), bhashajagara (Storehouse), study on different prajojyanga (useful plant parts).
PART – B

Section – 1

20 MARKS

Concept of dravya shodhan (purification of dravya).

Brief knowledge of Apamishran (adulterants)

Concept of Abhava pratinidhi dravya (substitutes)

Prashasta bhesjaja (ideal drug), plant extracts. Concept of viruddha Dravya (incompatibility of the dravya).

Introduction to Nighantu Vigyan, Dhanwantari Nighantu, Bhavaprakashanighantu, Rajanighantu.

Brief knowledge of cultivation, conservation of medicinal plants and information about endangered species.

Section – II

30 MARKS

Introduction, Definition & scope of Pharmacology and Principles of general Pharmacology.

Detailed Knowledge of Following Dravya –

Detailed knowledge of following drugs with respect to Basonym of drug, Main Synonyms, Regional Name, Botanical Name, Family, Classification of Dravya (Gana) as described in Charak and Sushrut, External morphology, Useful parts, Important phytoconstituents, Rasa panchaka, Action on Dosha, Dhatu, Mala, Prayogarha vyadhi (therapeutic indications), Amayikaprayoga and Matra (Therapeutic administration and Dose), Vishishta yoga (names of important formulations), Vishakta Lakshan (adverse effects), Chikitsopachara (remedial measures) and Shodhana (as required)

[Alphabetical order and Botanical names to all the drugs are to be added]

**Introduction, Guna, Karma and Uses of following Jantava Dravya (Drugs of Animal Origin)**

a) Kasturi
b) Gorochana
c) Mrigasringa

d**Introductory Knowledge of Following Annapana Varga:**

a) Jala Varga
b) Dugdha Varga
c) Madhu Varga
d) Taila Varga
e) Sukadhanya Varga
f) Shamidhanya Varga
g) Phala Varga
PRACTICALS

Study of Macroscopic, Microscopic characters and Demonstration of organoleptic characteristics and grahya-agrahyatva of following plants and their useful parts.

a. Kanda (stem) - Guduchi or Ashtishrinkhala
b. Patra (leaves) - Vasa or Kumari
c. Pushpa (flower and Parts of flower)- Dhaki or Japa
d. Phala (fruit) – Maricha or Madanaphala or Vidanga
e. Beeja (seeds) – Eranda or Kapikacchhu
f. Twak (bark) – Kutaja or Arjuna or Ashwattha
g. Moola(Root)- Punarnava or Chitraka
h. Niryasa (exudate) – Guggulu or Mocharasa
i. Jangama dravya - Madhu or Ghrita.

Records of Herbarium sheets of 50 medicinal plants Compulsory study tour other state/s for field knowledge and procurement of plant species.

PRACTICAL MARKS DIVISION

1. Herbarium 20 Marks
2. Practical record 20 Marks
3. Drug identification- spotting –Raw/crude drugs 30 marks
4. Plant identification spotting –fresh 30 marks
5. Practical 40 marks
6. Viva-Voce 60 Marks

Total 200 marks

RASASHASTRA

PAPER - 1 100 Marks

PART A 50 Marks

History of Rasashastra

Definition and etymology of Rasa, History of Rasashastra, Importance of Rasaushadhi, Concept of Rasa-Rasayana, Concept of Raseshwar Darshana. Concept of Rasashala and Rasamandap.

Brief Description and Application of Technical terminologies (Paribhasha)

Avapa, Nirvapa, Dhalana, Bhavana, Jarana, Murchana, Shodhana, Marana, Amrutikarana, Lohitikarana, Mruta Loha, Satwa Patana, Druti, Apunarbhava, Niruttha, Rekhapurna, Varitara.

Dravya Varga

Amlavarga, Panchamritti, Panchagavya, Panchamrita, Ksharashtaka, Dravakagana, Mitra panchaka, Rakta varga, Lavanapanchaka.
**Brief description of Yantras and their application**

Ulukhala Yantra, Kholwa Yantra, Kachhapa Yantra, Damaru Yantra - Vidhyadhara Yantra-Urdhwapatan, Addhapatan & Tiryakpatana Yantra, Jaranartha Tulayantra, Dolyayantra, Patalayantra, Palika Yantra, Baluka Yantra, Bhudhara Yantra, Sthali Yantra, Swedana Yantra.

**Brief description & application of Musha (Crucible)**

Samanya Musha, Gostani musha, Vajra Musha, Maha musha, Yoga musha, Vrintaka Musha, Malla / Pakwa musha. Different types of crucibles e.g. Silica crucible, platinum crucible. Mudra and Sandhi Bandhana.

**Brief description & applications of Chullika**

Satwapatana Koshthi, Patala Kosthi, Gara Koshthi, Angarakoshthi and knowledge of various heating appliances viz. Gas stove, Hot plate, Heating mantle, Induction Stove, Hot Air Oven.

**Concept, definition and types of Puta**

**Knowledge of Parada**

Concept of Murchhana and Jarana of Parada, Preparation of Kajjali, Classification of Rasaushadhi: Khalvi rasa e.g. Tribhuvana Keerti Rasa, Parpati Rasa- Rasa Parpati, Kupipakva Rasa- Rasa sindur, Pottali rasa - Hemagarbha pottali. Rasa sevana vidhi and pathya and apathy.
Brief introduction of quality control, standardization and GMP of Rasaoushadhies

Part B

Minerological identification

Occurrence, Synonyms, Minerological identification, Sources, Types, Grahya and Agrahyata, Shodhana, Marana and other processing techniques. Properties, dose, anupan and therapeutic uses, pathya – apathyya and ashuddha, apakwa and avidhee sevanjanya dosha and its management, important formulations of the following:

Maharasa

Abhraka (Biotite Mica), Vaikrantha, Makshika (Chalco-pyrite), Vimala (Iron Pyrite), Shilajatu, Sasyaka (Peacock ore), Chapala and Rasaka (Sphalerite).

Uparasa

Gandhaka (Sulfur), Gairika (Red Ochre), Kasisa (Green Vitriol), Kankshi (Alum), Haratala (Orpiment), Manahshila (Realgar), Anjana and Kankustha.

Sadharana Rasa

Kampillaka, Gauri pashana (Arsenic oxide), Navasadara (Ammonium chloride), Kaparda (Cowry), Agnijara, Giri Sindura (Red oxide of Hg), Hingula (Red Cinnabar) and Mriddara shringa (Litharge).

Dhatu

Swarna (Gold), Rajata (Silver), Tamra (Copper), Loha (Iron), Vanga (Tin), Naga (Lead), Yashada (Zinc), Kamsya (Bronze), Pittala (Brass), Vartaloha. Dhatu -graha sambandha.

Ratna

Manikya (Ruby), Mukta (Pearl), Pravala (Coral), Tarkshya (Emerald), Pushparaga (Topaz),
Vajra (Diamond), Nilam (Sapphire), Gomeda (Zircon or Cinnamone stone), Vaidurya (Cats eye), Ratnapariksha, Ratnadosha, Ratna-graha sambandha.

Uparatna

Vaikranta (Tourmaline), Suryakanta (Sun stone), Chandrakanta (Moon stone), Rajavarta (Lapis lazuli), Perojaka (Turquoise), Sphatikamani (Quartz), Trinakanta, Palanka, Putika, Rudhir.

Sudha varga

Sudha (Lime stone), Kaparda (Cowries), Shukti (Oyster Shell), Shankh (Conch Shell), Mriga shringa (Stag horn), Khatika, Godanti (Gypsum) and Samudraphena (Cattle Fish bone), Kukkutanda twak (Hen’s Egg Shell).

Sikata varga

Sikata (Silica), Dugdhapashana (Talc), Nagapashana / Jaharmohara (Serpentine), Badarshama (silicate of lime), Vyomasha (Sangeyashab - Jade), Kousheyashma (Asbestos) and Akika (Agate).

Kshara varga

Sarja kshara (Sodium bicarbonate), Yava kshara, Tankana kshara (Borax), Surya Kshara (Potassium Nitrate).

Miscellaneous

Mandura, Bola, Dam-ul Akhawayan (Raktabandhini), Kasturi, Bhoonag, Mayurpiccha, Sarjarasa, Madhoocchishta.

Visha and Upavisha

Introduction, collection and storage, classification, synonyms, shodhana, antidote, therapeutic and toxic doses, anupan, therapeutic uses, and formulations of following Visha and Upavisha-
Vatsanabha, Kuchala, Jayapala, Dhattura, Bhanga, Bhallataka, Gunja, Arka, Snuhi. Langali, Karaveera, Ahiphena and Chitrakmool.

**Aushadhi Yoga Gyanam- ingredients, manufacturing process, and bhashajprayogvidhi**

**Introduction to pharmcovigilance and its status in India, with reference to Ayurvedic drugs.**

**Practical 100 Marks**

**Minimum Twenty five practicals to be performed**

**Rasa [Parada]**

a. Samanya Shodhana of Parada  
b. Kajjali  
c. Mugdha rasa

**Maharasa varga**

a. Shodhana of Abhraka  
b. Dhanyabhraka nirmana  
c. Shodhana of Makshika  
d. Shodhana of Shilajatu  
e. Shodhana of Sasyaka.
Uparasa varga

a. Shodhana of Gandhaka
b. Shodhana of Gairika
c. Shodhana of Kasisa
d. Shodhana of Kankshi
e. Shodhana of Haratala
f. Rasa manikya nirman
g. Shodana of Manashila

Sadharana rasa varga

a. Shodhana of Hingula
b. Sodhana of Navasadar
c. Shodhana of Kapardika

Sadharana rasa varga

a. Shodhana of Hingula
b. Sodhana of Navasadar
c. Shodhana of Kapardika

Sudha Varga

a. Shodhana of Shankha
b. Shodhana of Shukti
c. Shodhana of Pravala mula
d. Shodhana of Godanti

Dhatu varga

a. Samanya Shodhana of Lauha
b. Shodhana of Mandura
c. Samanya Shodhana of Tamra
d. Shodhana of Naga
e. Shodhana of Vanga
f. Shodhana of Yashada

Kshara Varga

a. Shodhana of Tankana

Parpati

b. Preparation of Rasaparpati, Bola Parpati and Swetaparpati

Visha varga

a. Shodhana of Vatsanabha,
b. Shodhana of Bhallataka,
c. Shodhana of Kupilu,
d. Shodhana of Dhattura beeja
e. Shodhana of Jayapala,
f. Shodhana of Gunja,
g. Shodhana of Chitrakamoola

PRACTICAL FOR DEMONSTRATION / GROUP PRACTICALS

Hingulad rasakrishti (Hingulotteha Parada).

Bhasma: 4 (One from each group)

a. Abhraka bhasma, Swarna Makshika bhasma, Tamra bhasma
b. Vanga bhasma, Naga bhasma, Yashada bhasma
c. Mandura bhasma, Kasisa bhasma
d. Shankha bhasma, Kapardika bhasma, Godanti bhasma.
Pishti

a. Pravala pishti,
b. Jaharmohara / Akika pishti,
c. Trina kantha mani pishti,
d. Mukta pishti.

Druti

a. Gandhaka druti.

Formulations 4 (one from each group)

a. Rasasindura, Swarna vanga, Sameer pannaga rasa
b. Saptamruta lauha, Punarnava mandura, Navayasa lauha
c. Agnitundi vati, Tribhuvana kirti rasa, Sootshekhara rasa, Laghusutashekhara Rasa
d. Arogyavardhini vati, Laghumalinivasanta rasa, Hinguleshwar rasa, Anandbhairav rasa, Rajapravartini vati
BHAISHAJYAKALPANA

Paper II 100 Marks

Part A 50 Marks

kramika vikasa of Bhaishajyakalpana

History and Chronological (kramika vikasa) development of Bhaishajyakalpana. Concept of Aushadha and Bheshaja.

Fundamental principles of Bhaishaja Kalpana.

Study of Ancient and Contemporary systems of ‘Maana’ (Units of measurement), Shushka - ardra –drava- dravya grahan niyam (Rules of measures of dry, fresh, liquid drugs); Grahyagrahyatva, Nava Puran dravya grahan niyam.

Guidelines and Methods of collection, storage, preservation of Aushadhi dravya. Concept of Saviryatavadhi (shelf life) and stability in ancient and contemporary science.

Bheshajprayogavidhi

Aushadha Matra, Anupana and sahapan and Aushadh sevan kaala. (Posology).

Panchavidha kashaya kalpana and Other kalpana:

Introduction and general knowledge of useful instruments/ Equipments

Disintegrator, Mixer, Grinder, End Runner, Edge Runner, Sieve-Shaker, Granulator,
Tableting machine, Pill making machines, coating and polishing pan, capsule filling machine, sieves and mesh.

**Sneha kalpana**

Sneha yoni, Types of Sneha, Sneha murchana vidhi, Sneha paka vidhi, patra paka, types and their use. Sneha siddhi lakshana, dose, Preparation and uses of Triphala Ghrita, Bramhighrita, Narayana taila, Anutaila.

**Sandhana Kalpana and its types**

Madya Kalpana, Asava, Arishta, Sura (Prasanna - Kadambari - Medaka - Jagala - Bakkasa), Maireya, Surasava, Shukta, Kanjika, Sauviraka, Tushodaka, Sidhu kalpana their methods of preparation, siddhi lakshana, properties, uses, doses. Takrarishta, Draksharishta, Ashokarishta, Dashamoolarishta, Kumaryasava, Chandanasava.

**Kritanna and Aushadhisiddha anna Kalpana**

Definition of Kritanna, Concept of Pathya and Apathya, Yavagu –types of yavagu, Manda, Peya, Vilepi, Anna, Bhakta, Odan, Yush -types, Krishara, Mansa rasa, Vesavara, Khad Kamblika, Raga, Shadava, Dadhi and Takra Varga – Takra, Udasvita, Katvar, Mathita, Chhachika.

**PART B**

**Bahyopcharartha kalpana (External Applications)-Lepa**

Principles and precautions for preparation of formulations for following:

Netraupcharartha kalpana (Ophthalmic preparations)

Seka, Drava, Pindi, Anjana - Ashchyotana - Tarpana - Putapaka and Vidalaka, Methods of preparation of eye drops, eye ointments.

Nasyopacharartha Kalpana –

Classification of Nasya, Navana, Avapidana, Pradhaman, Marsha and Pratimarsha nasya.

Dhumapanarth kalpana –

Classification of dhumpaan, Method of preparation of dhumvarti and it’s therapeutic uses. Dhupan: Vranadhupan, arshodhupan.

Mukhaprayogarth kalpana

Gandoosha - Kavala - Pratisaran, Tooth paste, Tooth powders and Mouth wash.

Basti kalpana-

Classification, method of preparation of Niruha and Anuvasana, Basti Therapeutic properties and uses of Basti.

Brief knowledge of Standardization of Ayurvedic formulations- Kasthaushadhi.

Brief introduction of Drug and Cosmetics Act 1940 and Rules 1945.

Concept of Aushadhi Nirmanshala with respect to Good Manufacturing Practices (GMP) in accordance to Schedule T.
Practical Bhaishajya Kalpana 50 Marks

Following practicals to be performed- (Minimum one from each category)

Method of preparation, therapeutic uses, dose and anupana of the following

Swarasa-

a. Ardraka swarasa,
b. Tulasi swarasa,
c. Kumari Swarasa,
d. Vasa putapaka swarasa

Kalka

a. Nimba kalka
b. Rasona kalka

Kwatha

a. Punarnavasthaka kwatha
b. Rasna Sapthaka kwatha
c. Kulattha kwath.

Hima

a. Dhanyaka hima
b. Sarivadi hima

Phanta

a. Panchakola phanta
b. Yastimadhu Phanta.
Pramathya

a. Mustadi pramathya

Mantha

d. Kharjuradi mantha

Paniya

a. Aushadh siddha paniya
b. Shadanga paniya

Laksha Rasa.

Arka

a. Yavani arka,
b. Gulab arka,
c. Misreya arka

Panaka

a. Chincha panaka
b. Chandan panaka.

Sharkara

a. Banapsha sharkara
b. Nimbu sarkara.

Churna

a. Sitopaladi Churna
b. Hinguwashtaka Churna.
Gutika

a. Chitrakadi Gutika
b. Sanjivani Vati.

Guggulu

a. Triphala Guggulu
b. Kaishora Guggulu.

Avaleha

a. Chyavanaprashavaleha,
b. Vasavaleha,
c. Vyaghri Haritaki avaleha
d. Manibadra avaleha.

Rasa kriya

a. Darvi Rasakriya
b. Guduchi Ghana
c. Kutaja Ghana.

Khanda

a. Haridra khand,
b. Narikela khand,
c. Sowbhagya shunti paka

Satva

a. Amruta satva,
Varti

a. Phala varti
b. Chandrodaya varthi

Lavana

a. Arka lavana
b. Narikela lavana

Masi

a. Triphala masi
b. Mayurpiccha Masi

Ksheerapaka

a. Arjuna ksheerapaka
b. Rasona ksheerapaka
c. Shunthi Ksheerpaka

Kshara

a. Apamarga kshara
b. Snuhi kshara
c. Ksharasutra

Manda, Peya, Vilepi, Yavagu, Krishra, Vesavara

Yusha

a. Mudga yusha
b. Saptamushtika yusha
c. Kulattha yusha
Aristha

a. Kutajarishta
b. Takrarishta

Asava

a. Kumaryasava
b. Kanakasava

Sukta kalpana

a. Kanji

Udaka

a. Tandulodaka

Upanaha

a. Atasi Upanaha

Siktha Taila Nirman

Malahara-

a. Sarjarasa malahara
b. Gandaka malahara
c. Cream
d. Emulsion
e. Sneha
Kalpana

Sneha Murchhana –

a. Ghrita Murchana,
b. Taila Moorchna

Ghrita kalpana:

a. Jatyadi ghrita,
b. Triphala ghrita,
c. ksheerashatphala ghrita-

Taila kalpana

a. Panchaguna taila
b. Arka taila
c. Bala taila
d. Jatyadi taila

Taila patana-

a. Bhallataka taila patina
b. Jayapala taila patana

Shodhana

a. Guggulu
b. Hingu.

Visit of minimum three GMP approved Ayurvedic manufacturing units.

ROGA NIDANA

(Pathology & Microbiology)
**ROGA NIDANA**
(Pathology & Microbiology)

Theory Two Papers – 100 Marks Each
Practical/Viva voce – 100 Marks

**PAPER -1**  
100 Marks

**Part A**  
50 Marks

**Dosha Dushyadi Vigyana**

a) Definition and importance of Roganidana.

b) Samanya Nidana and Samanya Lakshana of Dosha Vridhhi, Kshaya and Prakopa.

c) Dosha Dhatu Ashraya Ashrayi Bhava.

d) Dhatu Kshaya Vridhhi Lakshana.

e) Mala Kshaya Vridhhi Lakshana.

f) Hetu, Bheda and Lakshana of Agni Dushti.

g) Definitions and Samanya Lakshana of Ama.

h) Sama and nirama Dosha, Dushya Lakshana.

i) Dosha Paka and Dhatu Paka Lakshana.

j) Concept, classification, diagnosis and general complications of Avarana.

k) Doshagati and Rogmarga.

l) Detailed study of Srotomoola and Srotodushti Samanya and Vishishta Hetu Lakshana of all Srotas. Differences between Sroto Dushti and Kha Vaigunya.

**VyadhiVigyana**

a) Definition, synonyms and classification of Vyadhi & Vyadhi Ghatak.

b) Criteria for nomenclature of Diseases in Ayurveda (Vyadhinamakarana).

c) Bija, Bija Bhaga and Bija Bhaga Avayava Dushti.

d) Basic knowledge of Hereditary, Congenital, Acquired, Multifactorial, Traumatic and Environmental disorders.

e) Introduction to ICD Classification of Diseases of WHO and DSM classification.
g) Dhatu, Updhatu, Mala and Indriya Pradoshaj Vikara.
h) Concept of Ashta Mahagada.
i) Introduction to Ashta Nindita.
j) Definition and classification of Vyadhikshamatva.
k) Ojas – types of Ojo Dushti- Visrimsa- Vyapad & Kshaya & It’s Diseases.

**Basic Pathology**

a) Introduction to pathology and its sub-divisions.
b) Introduction to Cell Injury and Cellular adaptations.
c) Definition and brief description of inflammation – Healing/repair.
d) Definition and brief description of edema – shock – hemorrhage, Thrombosis, embolism, Ischemia and Infarction.
e) Types of Immunity – different types of immune responses in the body – Basic knowledge of auto immune diseases, Acquired immune deficiency disease and hypersensitivity.
f) Nomenclature and classification of tumors - difference between benign and malignant tumors.
g) Introduction to Nutritional disorders – disorders of macro and micro nutrients.
h) Introduction to infections.
i) Introduction and classification of microorganisms such as virus- bacteria-fungus.

**Part B**

**Nidana Panchaka Vigyana**

a) Difference between Roga and Rogi Pariksha.
b) Importance of Nidan Panchaka.
c) Hetu - Definition, Synonyms and Classification.
d) Purva Rupa – Definition, Synonyms, Samanya and Vishishta Purvarupa.
e) Rupa - Definition, Synonyms, Samanya and Pratyatma Lakshana. Difference between
Vyadhi and Lakshana.
f) Upashaya / Anupashaya – Definition, Types and its importance in diagnosis.
g) Samprapti – Definition, Synonyms and Type and Samprapti Ghataka.
h) Shat Kriyakaala. Relationship between Nidana Panchaka and Shat Kriyakaala.
i) Upadrava and Udarka.
j) ArishtaVigyan – Definition, Types and its importance.
k) Sadhyasadhyatwa – Types, their parameters and importance.
l) General diagnostic principles of AnuktaVyadhi (Ch. Vi. 4).

Pariksha Vighana

a) Importance and knowledge of Atpopadeshadi & Darshanadi Trividha, Chaturvidha, and Shadvidha Pariksha.
b) Importance and Knowledge of Ashtasthana Pariksha.
c) Importance and Knowledge of Karanadi Dashavidha Parikshya Bhava.
d) Importance and Knowledge of Dashavidha Pariksha.
e) Basic knowledge of ECG, USG, X Ray, CT Scan, MRI.

Paper II 100 Marks

PART – A 50 Marks

Systematic study of Nidana Panchaka of following diseases (Including Upadrava, Arishta and Sadhyasadhyata).

Diseases of Rasavaha Srotas

a) Jwara(Jwarabheda-Ama, Pachyamana and Nirama Jwara,Agantukajwara, Punaravartaka Jwara,Vishama Jwara, Dhatugata Jwara, Charakokta Sannipata Jwara.
b) General mechanism of Fever, Introduction to the Aetiopathogenesis of Malaria, Typhoid, Dengue fever, Influenza and Chikungunya.
c) Pandu, Amavata, Hridroga, Shotha.
d) Introduction to Anaemia & its Classification, Rheumatic fever, Rheumatoid
e) Arthritis, Hypertension, Angina, Ischaemic Heart Disease, Myocardial Infarction and CCF.

Diseases of Raktavaha Srotas

b) Introduction to Hepatomegaly, Spleenomegaly, Leukaemia, Thalessemia, Sickle cell Anaemia.

c) Introduction to Urticaria, Psoriasis, Eczema, Pemphigus.

Diseases of Mamsavaha Srotas

a. Galganda

b. Introduction to Thyroid disorders

Diseases of Medovaha Srotas

a) Sthoulya - Karshya – Prameha.

b) Introduction to Obesity and Diabetes Mellitus.

Diseases of Asthi – Majjavaha Srotas

a) Vatavyadhi - Akshepaka - Apananaka - Ardita - Pakshaghata – Gridhrasi –Vishwachi, Avabahuka, - Manyasthambha ,Katigraha,Pangutwa

b) Sandhigatavata, Asthi-Majjagata vata.

c) Introduction to Osteo- Arthritis, Osteoporosis.

d) Introduction to Parkinson’s disease, Stroke, Lumbago- Sciatica syndrome, Bell’s Palsy, Cervical- Lumber & Ankylosing Spondylitis.

Diseases of Shukravaha Srotas

a) Introduction to Klaibya and Vandhyatva.

b) Introduction to male and female infertility.
Diseases of Pranavaha Srotas

Introduction to the aetiopathogenesis of Pneumonia, Pleural effusion, Bronchitis, Bronchiectasis, Bronchial Asthma.

Diseases of Annavaha- Pureeshavaha Srotas

b) Introduction to Anaha, Adhmana, Atopa, Visuchika Alasaka, Vilambika.
c) Introduction to Peptic Ulcer, Irritable Bowel Syndrome (IBS) Diarrhoea, Dysentry, Constipation, Inflammatory Bowel Diseases.

Diseases of Udakavaha Srotas

a) Introduction to Trishna, Daha.
b) Introduction to water and electrolyte imbalance disorders.

Diseases of Mutravaha Srotas

a) Mutrakrichha – Mutraghata.
b) Introduction to Urinary Tract Infection, Nephropathies.

Diseases of Swedavaha Srotas

a) Introduction to Khalitya, Palitya.

Diseases of Manovaha Srotas

a) Apasmara, Unmada, Atatwabhinivesha-Vishada, Anidra, Mada, Murchha, Sanyasa.
b) Introduction to Epilepsy, Depression, Anxiety neurosis.
Upasargajanya Vyadhi (Communicable diseases)

b) Introduction to Measels, Chickenpox, Leprosy, Tuberculosis and AIDS.

Krimi Vigyana

a) Definition, classification of Krimi and features of Krimiroga
b) Snayuka, Shleepada.
c) Introduction of Filariasis and classification of common parasites.

PRACTICAL (100 Marks)

Fundamental Principles of Laboratory Tests

a) Introduction to laboratory, Sterilization, glass wares, solutions reagents and safety procedures, Disposal of biomedical wastes.

Haematology

a) Haemoglobin estimation.
b) Blood cells counting - WBC, RBC, platelets.
c) Hematocrit /Packed cell volume (PCV).
d) Erythrocyte indices - MCV, MCH, MCHC.
e) Peripheral blood smear, staining technique and differential leucocyte count.
f) Peripheral blood film examination in Anemia, Leukemia, Malaria, Filaria (Demonstration).
g) ESR.
h) Screening test for bleeding disorders- bleeding time (BT), Clotting time (CT), Demonstration of Prothrombin time (PT).
i) Blood grouping - ABO system, Rh typing (Rhesus system).
**Urine Examination**

a) Ayurveda anusara mutrapariksha.
b) Physical Examination - Volume, Reaction (Ph) & Specific Gravity.
c) Chemical Examination for - Proteins, Glucose, Phosphate, Ketone, Bile salts, Bile pigment.
d) Dipstick examination
e) Demonstration of Microscopic Examination.

**Stool Examination**

a) Ayurveda anusara purishapariksha.
b) Physical examination, Sama-Nirama Pariksha.
c) Microscopic examination of ova & cyst (Demonstration)
d) Occult Blood Test.

**Demonstration of Sputum Examination**

a) Ayurveda anusara sthivanapariksha.
b) Physical, Chemical and Microscopic Examination of the sputum.
c) Sample collection and Demonstration of AFB.

**Demonstration of Semen examination**

a) Ayurveda anusara Retaspariksha.
b) Semen examination.

**Biochemical Examination – (Demonstration)**

a) Blood Glucose, Serum Bilirubin, Blood Urea, Lipid Profile, Serum Creatinine, Serum Uric acid etc.

**Demonstration of different staining techniques in microbiology.**

**Demonstration of Sero-immunological Investigations: RA and Widal.**
Laboratory record –

Bed side Practical (Clinical Methods)

a) Introduction and demonstration of clinical methods (General and Systemic Examination).

b) Practical demonstration of examination of Roga based on Pancha Nidana.

c) Demonstration of instruments used for clinical examination.

d) Practical records of clinical examination of at least 20 long cases in I.P.D including Atur-bala-pramana pareeksha.

e) Practical records of clinical examination of at least 20 short Cases based on Ashta vidha pariksha in O.P.D.

f) Demonstration of ECG, USG and Radio imaging techniques.

Distribution of Marks for final Practical Examination

Daily Record - 10 Marks

Indentification of Instruments - 10 Marks

Laboratory Experiments - 20 Marks

Short Case - 10 Marks

Long Case - 20 Marks

Viva - Voce - 30 Marks

Total 100 Marks

THIRD PROFESSION
Third Profession

The third professional session shall start every year in the month of July following completion of second professional examination and the third professional examination shall be ordinarily held and completed by the end of the month of May or June every year after completion of one year of third professional session;

The third professional examination shall be held in the following subjects, namely:-

1. **Agad Tantra, Vyavahar Ayurveda evam Vidhi Vaidyaka**  
   *(Toxicology and Medical Jurisprudence)*
2. **Swasthavritta and Yoga** *(Preventive and Social Medicine and Yoga)*
3. **Prasuti evam Striroga** *(Obstetrics & Gynaecology)*
4. **Bala Roga/Koumarabhritya** *(Paediatrics)*
5. **Charak Samhita-Uttaradh** *(An Ancient Ayurvedic Text, Part-II)*

*NOTE:* The failed student of third professional who have passed all the subjects of first and second professional examinations shall be allowed to appear in final professional examination and maximum four chances shall be given to pass third professional examination within a period of maximum three years.
AGADATANTRA, VYAVAHR-AYURVED EVUM VIDHIVAIKYAK

(TOXICOLOGY, FORENSIC MEDICINE AND MEDICAL JURISPRUDENCE)
AGADATANTRA, VYAVAHAR-AYURVED EVUM VIDHIVAIDYAK

(TOXICOLOGY, FORENSIC MEDICINE AND MEDICAL JURISPRUDENCE)

Theory One Paper – 100 Marks
Practical/Viva voce -50 Marks
Theory -200 hrs
Practical - 100 hrs

PART- A

50 Marks

Derivation, definition of Visha and Agadatantra

Definition of toxicology, Definition of poison, suicidal and homicidal poisons, classification of poisons, their action and route of administration, absorption, excretion, metabolism, diagnosis and general principles of treatment, duties of a medical practitioner in case of suspected poisoning.

Origin and Classification of Visha

Its sources, Difference between Visha, Madya and Oja guna, Visha Upadrava and Visha Mukta Lakshana.

Tests for detection of Visha, and Modern Toxicological Techniques of detection of poisons Visha Data Lakshana, Visha Peeta Lakshana, Signs and symptoms of Visha afflicted organs and personal effects. (Poisoning with Anjana, Lepa paduka, Abharana etc.

Introduction to Environmental Toxicology

Samuhika Vishaprayoga- effect of chemical and nuclear warfare.

Vishopakrama described by Charak, General principles of Management of poisoning.
Manifestation of poisoning due to poisons of plant origin their fatal Dose, fatal period, management of poisoning, post mortem appearance and its medico legal importance. Visha and Upavisha- Arka, Snuhi, Langali, Karaveera, Gunja, Ahiphena, Dhattura, Bhallataka, Vatsanabha, Kupeelu, Jayapala, Bhanga & Tobacco, Parthenium hysteriphorus, Chitraka, Eranda, Digitalis and Cerebra Odallam.

**Garavisha, Dooshivisha, Viruddahara**

Food adulteration and poisoning–classification, diagnosis, management and contemporary significance.

**Jangama Visha**

Detailed study of Sarpa, Keeta, Loota, Vrischika, Mooshika, Alarka – Visha; Lakshana, Bheda, Chikitsa and their Sadhyasadhyata (contemporary and classical views).

Introduction to poisoning due to Acids, Alkalis, metals, Non-metals, Asphyxiants and others, their Fatal Dose, Fatal period, Manifestation, management, medico legal importance and postmortem appearance of poisoning due to:

- **a.** Acid and Alkalis– Sulphuric acid, Hydrochloric acid, Nitric acid, Hydrocyanic acid, Oxalic acid, Carbolic acid, Formic acid, alkalis in general.
- **b.** Asphyxiants – Carbon monoxide, Carbon dioxide, Hydrogen sulphide
- **c.** Nonmetallic poisons – Phosphorous, Iodine
- **d.** Metallic poisoning – Arsenic, Mercury, Lead, Copper, Zinc, Tin.
- **e.** Others - Petroleum – Kerosene Organo phosphorus compounds - Aluminum phosphate, Organo Chlorinated Compounds, Household poisons.

Madya and Madatyaya. Alcohol poisoning (Ethanol and Methanol).

*Introduction to Narcotic drugs and Psychotropic substances Act 1985.*
Marks

Vyavahara Ayurveda and Vidhivaidyaka

Definition of Vyavahara Ayurveda (Forensic medicine) and Vidhivaidyaka (Medical jurisprudence), concise history of Vyavahara Ayurveda (Forensic medicine) and Vidhivaidyaka (Medical jurisprudence). Introduction to Indian Penal Code, Indian Evidence Act and Criminal Procedure Code.

Legal Procedures

Inquest, Evidence, Witness, Courts and their powers.

b. Death and its Medico Legal Aspects, Medico Legal autopsy and *exhumation*.

c. Injuries and thermal injuries, their medico Legal aspects, general introduction of weapons.

d. Dowry deaths (Domestic Violence), their Medico Legal importance and laws in relation to it.

e. Asphyxial deaths and its Medico Legal importance.

g. Sexual offences, and their Medico Legal aspects. Sexual perversions.

h. Introduction to Forensic psychiatry.

i. Introduction to forensic laboratory.

Maintenance of Medical record.

PRACTICAL

Practical Training

a) Post Mortem examination
b) Evidence in the court
c) Demonstrations in the Forensic & Toxicology museum (Toxic & Anti toxic substances, medico legal specimens & Charts)
d) Clinical postings
e) Library Hours for compilation

SWASTHAVRITTA

(Preventive and Social Medicine and Yoga)
SWASTHAVRITTA

(Preventive and Social Medicine and Yoga)

Theory - Two papers - 100 marks each

Practical / Viva voce - 100 marks

Lectures – 200 Hrs

Practicals and demonstration – 100 Hrs

PAPER-I

PART A VAIYAKTIKA SWASTHAVRITTA 50 marks

Introduction

a) Definition of swastha & swasthya and swasthavritta. Arogya lakshana, swasthavritta prayojanam, WHO definition of health.
b) Dimensions of health-Physical, Mental, Social.
c) Concept of wellbeing- objective, subjective, standard of living, quality of life.

Dinacharya

a) Definition of Dinacharya
b) Aims and importance of dinachary
c) Brahma Muhurta evam Utthana
d) Usha Jalapana
e) Sharirachinta
f) Malatyaga
g) Mukha prakshalan
h) Dantadhavana and preparation of Ayurvedic tooth powder and paste
i) Jihvanirlekhanavidhi
j) Anjana
k) Pratimarsha Nasya
l) Gandusha and Kavala
m) Tambulasevana
n) Dhoomapana
o) Abhyanga
p) Udvartana
q) Utsadana
r) Vyayama
s) Chankramana
t) Snana
u) Anulepana
v) Vastra dharana
w) Danda dharana
x) Padatra dharana
y) Chatra dharana
z) Ushnisha dharana
aa) Ratnabharana dharana
bb) Madhyahna charya
cc) Cosmetic effect of Dinacharya procedures

**Rathricharya**

a) Sandhya charya
b) Rathri bhojana vidhi
c) Shayanavidhi according to Bhavamishra
d) Importance of ritucharya
e) Ritu presentation as per different acharyas
f) Adana kala & visarga kala
g) Sanchaya-Prakopa-Prashamana of Dosha according to ritu
h) Doshashodhana in Ritu Charya
i) Relation of Agni bala and Ritu
j) Pathya and Apathya Ahara and Vihara in different ritus
I. Ritusandhi
II. Yamadamsthra
III. Rituharitaki
IV. Rituviparyaya

Sadvritta

a) Description of Sadvritta and Achara Rasayana their role in Prevention and control of diseases.

Trayopastambha

Dietetic standards, Proximate principles of Food, Nutritional requirements, Sources and deficiency diseases of Protein, Carbohydrate, Fat, Vitamins and Minerals. Concept of balanced diet in Ayurveda, Nitya sevaneeya dravya, Balanced diet for different sections of people in the society, Social aspects of nutrition.

Aharavarga - Dhanya varga(Cereals and millets), Shaka and Harita varga (Leafy and Non leafy vegetables), Kanda varga (roots and tubers), Phala varga (Fruits), Taila varga(Fats and Oils), Ikshu varga & Madhya varga(Alcoholic Beverages), Dugdha varga (Milk and Milk products), Masala and vyanjana dravyas (Spices & Condiments), Kritanna varga(Prepared Food), Mamsa varga (Meat types).

Food hygiene

a) Milk hygiene-Milk composition, Source of infection (for Milk), Milk borne diseases, Clean and Safe milk, Pasteurization of milk.
b) Meat hygiene-Meat inspection, Slaughter house, Freshness of fish and egg. Fruits
and Vegetables hygiene
c) Sanitation of eating places, Preservation of food, Food handlers, Food borne
diseases, Food fortification, and Food adulteration, Food toxicants, Properties of
Vegetarian and Non-vegetarian diet, Effects of spices and condiments
d) Consumption of Alcohol and its effects on personal and social health. Effects of
pathya- apathy in lifestyle disorders- Diabetes, Hypertension, Obesity and Coronary
heart Disease.

**Nidra**

Nirukti and Utpatti, Types, Nidra – Swasthya sambandha, Properties of Yukta Nidra, Effects
of Ratri Jagarana, Diwaswapna, Anidra, Atinidra, Ahara and Vihara causing disturbed sleep,
Ahara and Vihara Causing sound sleep. Duration of sleep according to age, Sleep in healthy
and diseased persons.

**Brahmacharya–**

Brahmacharya and Abrahmacharya, Importance of Bharmacharya and Abrahmacharya,
Vyavaya sambandhi niyama, Effects of Ativyavaya. Methods of Virya Raksha,
Surataspriha(Libido) through Vajikarana, Viryanasa phala.

**Roganutpadaniya-**

Concept of Vega- Adharaniya Vega and Dharaneeya Vega, Diseases due to vegadharana and
their chikitsa, sharir shodhan.

**Rasayana for Swastha-**

a) Nirukti, paribhasha(definition), classification and examples

**Ashta nindita purusha Menstrual hygiene**
YOGA

Introduction

Yoga shabda utpatti, definitions, Different schools of Yoga – Rajayoga, Hathayoga, Mantrayoga, Layayoga, Jnanayoga, Karmayoga, Bhaktiyoga.

Yoga prayojana

Ayurveda yoga sambandha, swasthya rakshane yogasya mahatvam Yogabhyasa pratibhandhaka & siddhikara bhavas as per Hathayoga. Mitahara and Pathyapathyani during Yogabhyasa.

Panchakosha Theory

Astanga yoga

Yama, Niyama,

Asana and its importance

Standing Postures

a) Ardhatichakrasana, Padahastasana, Ardhaichakrasana, Trikonasana.

Sitting postures,

a) Swasthika, Gomukhasana, Padmasana, Vajrasana, Bhadrasana, Shashankasana, Ushtrasana, Pashchimottanasana, Suptavajrasana, ardhamatsyendrasana, Siddhasana.

Supine Postures

a) Pavanamuktasana, Sarvangasana, Mutsyasana, Halasana, Chakrasana, Shavasana, Setubandhasana.
Prone postures

Pranayama

a) Benefits of pranayama, time of practice, avara-pravara-madhyama lakshana, yukta-ayukta lakshana
b) Nadishudhi Pranayama.
c) Kumbhakabheda – suryabhedana, ujjayi, sheetali, Sitkari, Bhastrika, Bhramari Murcha, Plavini.
d) Nadishudhilakshana

Shatkarma

a) Dhauti, Basti, Neti, Trataka, Nauli, Kapalabhati

Bandhas and Mudras

a) Shad chakras, Ida-pingala-sushumna nadis.

Pratyahara, Dharana, Dhyana, Samadhi

Description of Yoga in Ayurveda

a) Moksha and Muktatma lakshana and upaya, Naishthiki chikitsa, Satyabuddhi, Tatvasmriti, Ashta Aishwarya, Ashta siddhis.

NISARGOPACHARA (Prakritika chikitsa)

Definition, history, aims and objectives Theories as per Western school of Naturopathy Indian school – Panchabhatopasana

Relation of Ayurveda and Naturopathy Importance of Naturopathy in present era.
Jalachikitsa (hydrotherapy)

a) Hot water treatment, Cold water treatment, foot and arm bath, Spinal bath, hip bath, abdominal wet pack, Steam bath, enema and whirl pool bath.

Mrittika chikitsa (Mud therapy)

a) Types of soil, doctrine of mud selection, mud bath.

Suryakirana sevana (sun bath - heliotherapy) Mardana (Massage) –

a) Different methods and effects.

Diet types

a) Soothing, Eliminative, Constructive, Positive and negative diet, Acidic and alkaline diet

Upavasa chikitsa (Fasting therapy) –

a) Importance, types, therapeutic effects of fasting.

Visrama chikitsa upayoga

PAPER II SAMAJIKA SWASTHAVRITTA 100 Marks

Part A 50 marks

Janapadodhwamsa

a) Causes, Manifestations and control measures, importance of Panchakarma and Rasayana.

Vayu (Air)

a) Vayu guna according to sushruta samhita, Properties of Vayu as per different directions, Vayu shudhi prakara – Ayurvedic aspect.
b) Composition of air.

c) Air of occupied room- Thermal discomfort and comfort zone, indices of thermal comfort. Air pollution – health and social aspects, Prevention and control of air pollution, Global warming.

d) Ventilation and its types.

e) Mountain air & High altitude – Health problems

**Jala (Ayurvedic and modern aspects)**

a) Importance of water , safe and wholesome water, water requirements, properties, types and sources of water, water pollution and health hazards, Methods of water purification. Hardness of Water.

b) Examination, Tests and analysis of water.

c) Rain water harvesting and water recycling

**Bhumi and nivasa sthana (Land and housing)**

a) Types of soil, soil & health, Land pollution, Bhumi shodhana, Nivasa yogya bhoomi, Social goals of housing, Housing standards, Mahanasa (Kitchen) standards, Rural housing, Housing and health, Overcrowding.

**Prakasha (lighting)**

a) Requirement of good lighting, natural lighting, artificial lighting, biological effects of lighting.

**Dhwani pradooshana (Noise pollution)**

a) Noise, Sources, effects, & control

**Vikirana (Radiation)**

a) Sources, effects and control
Apadravya Nirmulana (Disposal of solid waste)

a) Different types of solid waste  
b) Storage and collection of refuse  
c) Methods of disposal of solid waste (Rural & urban)  
d) Bio-medical waste management

Malanishkasana Vyavastha (Excreta Disposal)

a) Methods for Unsewered area and Sewered area Latrines for camps, fairs and festivals

Disposal of dead body –

a) Burial, Burning, Electric cremation.

Meteorology (Ritu evam Vatavarana jnanam)

a) Definition of weather and climate, factors influencing weather and climate.

Disaster management

a) Definition, natural and man-made disasters, epidemiologic surveillance and disease control.

Occupational Health

b) Offensive Trades- Effects on health and precautionary measures.

School health services

a) Health problems of school children, aspects of school health service, duties of school medical officers, Maintenance of healthy environment
Epidemiology

Concept of Epidemiology, Dynamics of disease transmission, concept of diseases, concept of causation, Epidemiological triad, natural history of disease, concept of control, concept of prevention, Risks factor, modes of intervention, incidence and prevalence. Susceptible host, host defenses, Immunizing Agents, Disease prevention and control, investigation of epidemic.

Disinfection – definition, types.

Ayurvedic concept of Vyadhikshamatva and sankramaka rogas.

Epidemiology of communicable Diseases

Chicken Pox, Measles, Diphtheria, Pertussis, Mumps, Tuberculosis, SARS, Influenza, Pneumonia, Cholera, Polio, Viral Hepatitis, Typhoid, Leptospirosis, Dengue Fever, Chikungunia, Malaria, Filariasis, Leprosy, Rabies, Tetanus, Emerging and re-emerging diseases

Kuprasangaja vyadhi (STDs)

a) AIDS, Syphilis, Gonorrhoea, Chanchroid

Non-communicable disease epidemiology

a) Diabetes, Obesity, Hypertension, Coronary Heart Diseases, Rheumatic Heart Disease, Cancer

Chikitsalaya Bhavana (Hospital Building)

Part B

Prathamika swasthya samrakshana (Primary Health Care)

a) Definition, principle, elements, levels of health care.
b) Structure at village, sub centre, PHC, CHC, Rural hospital levels.
c) Health insurance, Private agencies, Voluntary health agencies, NGOs and AYUSH sector. Role of Ayurveda in Primary Health Care.

**Parivara kalyana Yojana (Family welfare Programmes)**

a) Demography, demographic cycle, life expectancy.
b) Family planning, methods of family planning.

**Matru sishu kalyana Yojana – MCH programme**

a) Ante natal, intra natal, post natal, neo natal care. Child health problems and indicators of MCH care.

**Preventive geriatrics**

a) Problems of elderly, prevention and control measures.

**World Health Organisation**

a) Objectives, structure and functions.

**International health agencies**

a) United Nations agencies, Health work of bilateral agencies.

**Alma Ata declaration National Health Policy**

**Health statistics**

b) Health survey

**Swasthya prashasana (Health Administration)**

a) Health administration at Central including AYUSH, state, district, village levels.
National health programmes

Tuberculosis (RNTCP), Leprosy (NLEP), AIDS (NACP), Blindness (NPCB), Polio (PPI), Diabetes (NDCP), Cancer (NCCP), Guinea worm, Vector born disease control programme, NRHM, all the upcoming national health programmes, RCH programme, Universal Immunization Programme.

National Nutritional Programmes

a) IDD, Vitamin A prophylaxis, Mid day meal, anemia control programmes.

PRACTICALS

Demonstration of Dinacharya procedures-

a) Anjana, nasya, kavala, gandoosha dhoomapana, abhyanga, udvarttana.
b) Parichaya of aharadravya, immunization agents, disinfectants and family planning devices
c) Practical demonstrations of Asanas mentioned in the syllabus
d) Pranayama (Suryabhedana, Ujjayi, Shitali, Sitkari, Bhastrika, Bhamari and Nadishuddhi) and Shad karmas(Jala dhauti, Jalaneti, Sutraneti, Trataka, Kapalabhati).
e) Preparing and delivering of a health educational talk on health related issues. A short compilation on any topic on environmental health.

Educational Visits

a) Observe the functioning of the Milk Dairy, Water purification unit, Sewage treatment unit, MCH/Family welfare centre, Leprosy hospital and industrial unit.
b) Visit to Primary Health Centre for knowledge of actual implementation of National health programmes including knowledge of rural health.
c) Visit of rural Ayurvedic dispensary.
d) Visit to naturopathy centre to observe naturopathic treatment modalities.
Health survey-

a) Minimum 5 families of rural and urban areas.
b) There should be 3 case sheets for Yoga Naturopathy & pathya apathyya together and 3 case sheets for communicable diseases.
c) Proformas for Case sheets/practical records/survey/Dinacharya projects etc should be prepared by the respective universities.

Practical and Viva Voce examination

PRASUTI TANTRA & STRIROGA

(Gynaecology and Obstetrics)

Marks 200 (100 marks each paper)

Practical-100 marks

Theory -200 Hrs

Practical-100 Hrs

PAPER-1 PRASUTI TANTRA 100 marks

PART-A 50 marks

INTRODUCTION TO SUBJECT

STRI SHARIRAVIJNAN

a) Etymological origin of the word Stri. Artava vaha and Stanyavaha strotamsi. Tryavarta yoni Stri Vishishta, Peshi Marman.
b) Anatomy of female reproductive system. (External and internal genital organs) Soft & Bony Pelvis and its obstetrical importance.
c) DESIRABLE (non detail)
d) Vayobhedena Stri sangnya

RAJO VIGYANA

a) Description of Raja, Artava and Prathama Rajo Darshana, Rajasvala Charya. Ritumati Lakshana, Ritumaticharya, Ritukala
b) Menarche, Menstrual cycle and their regulation by endocrine glands,
c) Ovulation – Importance in conception
d) DESIRABLE (non detail)
e) Concept of Stri Sukra
GARBHA VIGYANA

Garbhasya paribhasha, Garbhadhanavidhi, Garbhavakranti, Garbha Sambhava samagri,
Garbhakara bhava, Panchabhautikatwa of Garbha, Masanumasika Vridhi of Garbha, Garbha
Poshana, Garbhasayasthe Garbhasthiti Foetal attitude, lie, position, presentation Apara,
GarbhaNabhinadi, Jarayu, Ulba Formation, Development, Function of Placenta, Umbilical
cord, Amniotic fluid Foetal membranes -Abnormalities of Placenta

a) DESIRABLE (non detail)
b) Garbhalingotpatti, Garbhasya Avayavotpatti, Garbha Varnotpatti, Garbha Vikriti

GARBHINI VIGYANA

a) Lakshana of Sadhyograhita Garbha, Lakshana of Vyakta Garbha, Pumsavana vidhi
Diagnosis of Pregnancy
b) Garbhini vyavastha: Garbhini Paricharya, Garbha Upaghatakara Bhava, Dauhrida
Ante Natal care-Examination, Investigation and Management
c) Garbha Vyapada: Nidana, Samprapthy and Chikitsa Garbhasrava and Garbhapata-
Garbha shosha-Upavishtaka, Nagodara, Upashushka, Leena garbha,
d) Antarmrita garbha, Raktagulma, Bahugarbhattha
e) Abortions, Rh-incompatability-
f) Causes, clinical features, complications and management.
g) Gestational trophablastic neoplasias, Ectopic pregnancy, IUGR, Intrauterine foetal
death, Multiple pregnancy

GARBHINI VYAPAD

a) Hrillasa, Chardi, Aruchi,Atisara, Vibandha, Arsa, Udavarta, Sotha, Parikarthika,
Vaivarnya, Kandu, Kikkisa, Pandu, and Kamala, makkala
b) Common ailments of Pregnancy-High Risk Pregnancy, Emesis gravid arum,
Gestational Anemia, Gestational Hypertension, Gestational Diabetes, Toxemias of
Pregnancy, Jaundice, AIDS,
c) Ante Partum Hemorrhage causes, clinical features complications and Management
PRASAVA VIGYANA

a) Prasava Paribhasha, Prasavahetu, Prasavkaala, Sutikagaranirmana, Sangrahaniya Dravyani, Sutikagara praveshavidhi.

b) Prasavavastha; Prajayani/ Upasthita Prasava/ Asannaprasava lakshana, Aavi. Prasavaparicharya, Jatamatraparicharya

c) Normal Labour:- Definition of Labour, Physiology & Mechanism of Labour, Monitoring of Labour and management, Pictogram, Episiotomy, care and resuscitation of newborn.

RASAVA VYAPAD

a) Garbhasanga, Yonisamvarana, Aparasanga, Mudagarbha-definition, Nidana, Types & Management

b) Induction and augmentation of labour, Cervical dystocia, Cephalopelvic disproportion, Prolonged labour, Preterm labour, Post term labour, foetal distress, Assisted Labour, Caesarian

c) Retention of Placenta, PPH - causes, clinical features and management, Genital tract Injuries during labour

DESIRABLE (non detail)

a) Uterine Inversion, Amniotic Fluid Embolism, Garbhasthithi parivarthan(Version), Forceps Delivery, Ventouse Delivery.

SUTIKA VIGYANA

a) Sutika Paribhasha, Sutika Kaal, Sutika paricharya. Changes during sootika avastha (Sareerika&Manasika). Normal and abnormal Puerperium and its Management

b) Sutika Roga – Number of Sutika Roga, Sutika Jwara, Shotha and Makkala.

c) Stanyavijnan- Sthanyakushti, Sthanyakshaya,Sthanyakridhi -their causes, clinical features and treatment
d) Emergency care in obstetrics

**DESIRABLE (non detail)**

a) Stana stanya –Pareeksha, Stanya sampat.

**PAPER-II STRI ROGA 100 Marks**

**PART-A 50 Marks**

**ARTAVA VYAPAD**

a) Artava-kshaya vridhi, Ashtartavadushti lakshana chikitsa Asrigdara lakshana samprapti Chikitsa.
b) Menstrual disorders-Amenorrhoea, hypomenorrhoea, Oligomenorrhoea, Dysmenorrhoea, Abnormal uterine Bleeding

**YONI VYAPAD**

a) Sankhya, Nidana, Lakshana, Upadrava evam Chikitsa
b) Endometriosis, Fibroid uterus, Genital Prolapses, Retroverted Uterus, Pelvic infections, Cervical erosion, Pelvic Inflammatory Diseases

**VANDHYATWA**

a) Prakar, Nidana, Chikitsa of Infertility – Causes, Types, Investigations and Management.
b) Yoni Kanda, Yoni Arsa, Granthi, Arbud,
c) Pelvic Infections including Sexually Transmitted Infections, HIV, AIDS, Preventive measures.
d) Menopause-changes during menopause, menopause syndrome, management.

**Desirable (non detail)**

a) Congenital malformations of female genital tract.
b) Sukra vijnan – kshaya, vridhi, dushti hetu lakshana and chikitsa

c) Benign and Malignant tumours of Genital Tract

**PART-B**

**STANA ROGA**

a) Stanakeela- nidana lakshana chikitsa, Stanagranthi, Stanavidradhi, Stanashoph Mastitis, Breast abscess, Galactocele - Etiopathology, clinical features, diagnosis, prognosis and complications

b) Sthanik Chikitsa - Snehana, Swedana, Uttarabasti, Pichu, Varti, Lepana, Dhupana, Dhavana, Dahana, Ksharakarma -. Practical knowledge of all these procedures along with indications, complications and management.

**Shastra Karma**

a) Surgical procedures their Indications, Contraindications of cauterization of cervix, cervical dilatation and curettage, female surgical sterilization

b) Knowledge of indication and procedure of PAP smear. Endometrial biopsy and interpretation of the reports

c) Stri roga Sambandhita Pramukha Aushadhyai, Prasuti & Stri Roga Chikitsa Upayogi Yantra Shastra Parichaya and Vyadhvinischaya Upaya (Investigative and Diagnostic Aids)

d) Garbhanirodhaka Upaya.

e) Parivar Niyojana, Reproductive and Child Health Care, AIDS/HIV control Programme, MCH, PNDT Act, MTP Act, and importance of current National Programme

f) Knowledge of important Commonly used Ayurvedic and Allopathic drugs used in Prasutitantra and Streeroga. Pharmacotherapeutics of allopathic drugs in obstetrics and Gynaecology

g) Record keeping, ethical and medicolegal issues in Streeroga and prasutitantra

**DESIRABLE (non detail)**
a) Laproscopy, hysteroscopy, hysterosalphingography, USG, X-RAY, Colposcopy, Cervical Biopsy. Granthi evum Granthi nirharan samanyajnan(Myomectomy, hysterectomy)

**CLINICAL TRAINING-OBSTETRIC SKILLS**

To perform independently

b) History taking and examination of antenatal and gynaecological cases
c) Diagnosis of Pregnancy, assessing of gestational period, to diagnose onset of labour
d) To monitor labour progress, able to plot Partogram
e) Observation of 10 labour
f) To diagnose abnormalities of labour and decide about the referral of the patient
g) Able to provide first aid for obstetric emergencies
h) Recognition of post partum complications
i) Counselling and promoting of breast feeding
j) Record 5 antenatal cases, 5 intrapatum, 5 post partum cases

To observe/assist- D&C, D&E, Caesarean section, Repair operations, Resuscitation of new born.

**GYNAECOLOGICAL SKILLS**

To perform independently

a) History taking and examination of gynaecological cases
b) Recording 10 gynaecological cases, 5 gynaecological procedures
c) Taking vaginal smear, high vaginal swab
d) Practical knowledge of sthanika chikitsa
e) Observation and practical knowledge of minor gynaecological procedures
f) Observation of Surgical procedures
g) Identification, uses., Demonstration of surgical instruments
h) Observation of Method of sterilization, MTP, Surgical procedures Hystrectomy, Oopherctomy
DISTRIBUTION OF PRACTICAL MARKS

1. Case taking – 2 cases – one Gynec, one obstetric - 30 marks
2. Instruments, Drugs, & Models - 20 marks
3. General Viva - 40 marks
4. Record - 2 (one Prasuti, one streerog) - 10 marks

Total 100 marks

BALA ROGA/KAUMARABHRITYA

(Ayurvedic Pediatrics)
Kaumarbhritya (Ayurvedic Pediatrics)

Theory One Paper – 100 Marks
Practical Viva Voce - 50 Marks

PAPER – 1 100 Marks
PART – A 50 Marks

Kaumarbhritya Parichaya Evum Balaka Paricharya
(Introduction to Ayurvedic Pediatrics and Child Care)

General introduction and scope of Kaumarbhritya (Ayurvedic Pediatrics), Definitions and terminologies used in Kaumarbhritya.

Scientific contribution of Kashyapa Samhita in Kaumarbhritya.

Vayobheda (Classification of age): Garbha, Bala, Kumara; Kshirada, Kshirannada & Annada etc. and modern classification of childhood period.

Navajata Shishu Paricharya (Neonatal Care): Care of the Jatmatra (Newly born child) and the Sadyojata, Care of the Samaya-purvajata Shishu (Preterm), Purnakalika Shishu (Full term), and Samaya-Paschatjata Shishu (Post term neonate), Nabhinala Chhedana (Cutting of umbilical cord), Complications of improper cutting of umbilical cord and its treatment, Rakshoghna Karma (Protective measures- Ayurvedic and modern view).

Navajata Shishu Parikshana (Examination of newborn): Ayu-Parikshana, Modern approach to Neonatal Examination

Navajat Shishu Poshana (infant feeding): Specific feeding schedule as per Ayurvedic texts and modern concept; Stanya-Sampat (Properties of normal breast milk) Stanyotpatti (Physiology of lactation), Stanya Sangathana (Composition of breast milk), Stanya
Parikshana (Examination of breast milk), Stanya-Piyusha (Colostrum); Stanya-Pana-Vidhi (Techniques of breast feeding), Stanyakshaya-Stanyanasha (Inadequate production and absence of breast milk), Dhatri (wet nurse)- Stanyabhava dugdh Vyavastha (alternative feeding in the absence of breast milk), Various other milk feeding methods.

Stanyadosha (Vitiation of Breast milk), Stanya Shodhana (Purification of breast milk), Stanya Janana and Vardhanopakrama (Methods to enhance breast milk formation).

Garbha Vridhi Vikasa Krama: Samanya Parichaya (brief monthwise development of fetus), Milestones of development during infancy and childhood including concepts of various Samskaras.

Poshana (Nutrition): Normal requirements of nutrients and common food sources.

Dantotpatti evum Danta Raksha Vidhi (Dentition and dental care): Danta-sampat (Characteristics of healthy teeth), Danta Nisheka evum Dantodbheda (Eruption of teeth), Dantodbhedjanya Vikara (Dentition disorders).

Vyadhikshamatva: General concepts of Bala (Immunity) and methods of Bala Vriddhi.

Prashan & Lehana: Indications, contra-indications, different drugs used in lehana

Knowledge of National Programs related to Child Health Care: Reproductive and Child Health (RCH) Program, Community Child Health Programs, Nutritional Programs, National Immunization Program and other programs incorporated by Govt. of India from time to time

PART - B 50 Marks

Samanya Chikitsa Siddhanta and Balaroga

(General Principles of Treatment and Management of Pediatric Disorders)

Bala Pariksha

a) Vidhi Evam Shishu Vedana Parigyan (Examination of sick child and Diagnostic
methods-Ayurvedic and modern). Samanya Chikitsa Siddhanta (General principles of treatment in children).

b) General Aushadhl Matra Nirdharana - for Ayurvedic and modern drugs preparations (drug doses according to age, weight and drug contents)

c) Specific therapeutic panchakarma procedures in children with special emphases on snehan, swedan and basti.

**Prasava Kaleena Abhighata (Birth injuries):**

a) Shwasavrodha (Asphyxia neonatorum), Ulvaka, Upashirshaka (Caput Succidanum and Cephalohaematoma), Facial Paralysis, Erb's Paralysis, Bhagna (fractures).

**Brief description of Sahajavyadhi (Congenital disorders):**

a) Sahaja Hridaya Vikara

**Congenital Cardiac Disorders**

a) Jalashirshaka (Hydrocephalus), Khandaoushtha (cleft lip), Khanda-Talu (cleft palate) Sanniruddha Guda (Anal stricture / imperforated anus), Pada Vikriti (Talipes equanovarus and valgus), Spina bifida, Meningocele, Meningomyelocele.

**Brief knowledge of genetic disorders**

a) Down syndrome, Turner Syndrome, Muscular dystrophy, Sickle-Cell Anemia, Thalassaemia, Sahaja Madhumeha (Juvenile diabetes).

**Prasavottara Vyadhi (Neonatal disorders):**

a) Navajata Kamala (Neonatal Jaundice), Navajata Netrabhisayanda (Neonatal conjunctivitis), Nabhiroga (Umbilical disorders), Navajatshishu-raktavishmayata (Neonatal Septicemia)

**Dushta Stanyapanajanya Vyadhi (Disorders due to Vitiated Milk):**
a) Lactose intolerance, Kshiralasaka, Kukunaka, Ahiputana (Napkin Rashes)

**Kuposhanajanya Vyadhi (Nutritional disorders):**

a) Karshya, Phakka, Balashosha and Parigarbhika (Protein Energy Malnutrition), Vitamin and Micro-nutrient deficiency disorders, Hyper-vitaminosis, failure to thrive.

**Aupasargika Vyadhi (Infectious Diseases):**

a) Karnamula Shotha (Mumps), Romantika (Measles), Rubella, Masurika (Chicken Pox), Rohini (Diphtheria), Kukkura -Kasa (Whooping Cough), Dhanurvata (Tetanus), Krimiroga (Worm Infestations), Antrika Jwara (Typhoid), Matisakavarnashotha (Meningitis), AIDS, Dengue, Malaria, Rajayaksha (Tuberculosis), Jivanujanya Yakrit Shotha (Hepatitis)

**Srotas Vikara:**

**Pranavaha Srotas:**

a) Pratishyaya (common cold), Kasa (Cough), Shwasa (Respiratory distress syndrome), Tamaka Shwasa (Bronchial Asthma), Utphuliika, Swasanaka Jwara (Pneumonia/Pneumonitis,Bronchiolitis), Gala shotha (Pharyngitis, Laryngitis), Talukantaka(Tonsillitis)

**Annavaha Srotas:**

a) Ajirna (Indigestion), Atisara (Diarrhoea), Chhardi (Vomiting), Vibandha (Constipation), Mukhapaka (Stomatitis), Gudapaka (Proctitis), Parikartika (Anal fissure), Udarshula (Infantile Colic), Pravahika (Dysentry), Gudabhransa (Rectal Prolapse). Ama and its disorders like Ama vata jwara (Rheumatic fever).

**Rasavaha Srotas:**

a) Jwara (Fever), Pandu (Anemia), Mridbhakshanajanya Pandu (Anemia associated with clay eating/Pica).
**Raktavaha Srotas:**

a) Kamala (Jaundice), Raktapitta (Haemorrhagic disorders), Yakritodara (Hepatomegaly) and Pieehodara (Spleenomegaly).

**Mamsa Medovaha Srotas:**

a) Apachi (Lymphadenitis), Galaganda (Goitre), Gandamala (Cervical Lymphadenopathy).

**Mutravaha Srotas:**

a) Shopha in Vrikka (Glomerulonephritis and Nephrotic syndrome)

**Anya Bala Vikara (Miscellaneous Pediatric Disorders)**

a) Apasmara (Epilepsy), Akshepa (Convulsions), Nirudhaprakasha (Phimosis), Cerebral palsy.

b) Behavioral Disorders of Children, their management and counseling: Breath holding spell, Shayyamutra (Bed wetting), Pica, Unmada, Autism, ADHD (Attention Deficit and Hyperactive Disorders), Jadatwa (Mental retardation).

d) Balagraha: General description, classification, clinical features and management.

**PRACTICAL**

**Content of Practical / demonstration**

**Clinical training of above mentioned disorders of children.**

**Exposure to -**
a) Navajata Shishu Paricharya (Care of the newborn)
b) Pranaprtyagamana Vidhi (Resuscitation procedure of new born)
c) Vaccination
d) Panchakarma Vidhi (Panchakarma procedures) especially Snehan, Swedana, Basti.

**Knowledge of various equipments**

a) Knowledge of various equipments such as phototherapy unit, overhead radiant warmer, resuscitation equipments, Panchakarma equipments and their application

**Knowledge of IV fluid administration, blood sampling**

**Anthropometry measurements and their interpretation**

**Various Ayurvedic & modern Procedures and investigations in pediatric practice**

**Distribution of Marks**

Clinical work: Pediatric and neonatal case records [1.0 case sheets of each] 10 Marks  
Patient Examination 20 Marks  
Spotting 05 Marks  
Viva – voce 15 Marks  
**Total** 50 Marks

**Reference Books**

KAYACHIKITSA

(Internal Medicine including Manasa Roga, Rasayana & Vajikarana)
KAYACHIKITSA

(Internal Medicine including Manasa Roga, Rasayana & Vajikarana)

Theory Two Papers – 100 Marks Each
Practical/Viva voce – 100 Marks

Paper I

Part - A

100 Marks
50 Marks

Introduction on Kayachikitsa

Importance of Kriya Kaala according to stages of Dosha and their management.

Chikitsa sutra and Management of vriddhi (increased) and kshaya (decreased) of Dosha, Dhatu and Mala, Ojo Vyapat (Kshaya, Visramsa and Vyapat) and its management. Chikitsasutra and Management of Sama-Nirama states, Roga-Anutpattikara Chikitsa, Roga Prashamana Chikitsa (Doshapratyanika, Vyadhipratyanika, Ubbhayapratynika), Doshopakrama, Chikitsa sutra and Management of Sthanantara Dosha (Ashayapakarsha, Anuloma/Pratiloma gati of Dosha, Vimarga gamana of Dosha), Knowledge of Lina Dosha & its management, Diagnosis, Chikitsa Sutra and Management of Avarana and of Dhatu Pradoshaja diseases, Importance of Dosha, Dushya , Bala, Kaala, Agni, Prakriti, Vaya, Sattva Satmya, Desha, Ahara and stage of diseases in treating them. Chikitsa Sutra and Management of ‘Samanyaja and Nanatmaja’ diseases.

Detailed description of Dvivedhopakrama (Santarpana and Apatarpana) and Shadavidhopakrama (Rookshana, Snehana, Swedana, Sthambhana, Langhana and Brimhana). Detailed description of Shodhana, Shamana and Nidana Parivarjana. Knowledge of Aushadha matra, Sevan kaala and Anupana, Definition and Knowledge of Pathya-Apathya with examples of diseases of various systems.
Samanya Chikitsa Siddhanta of Manasa Roga.

a) Derivation of the term ‘Manas’, its sthana (place), Guna (qualities) and Karma (functions).

Principles & Management of Nutritional deficiency disorders.

a) Management of Vardhakyajanita vikara, Indriyapradoshoja vikara, Alzhiemer’s Disease, Sleep disorders, General debility.

Diseases produced by Genetic, Environmental and Iatrogenic factors

a) General introduction and principles of Management of diseases produced by Genetic, Environmental and Iatrogenic factors. Disorders due to drug and Food allergy and their management and other allergic conditions.

PART – B 50 Marks

Detailed description of Chikitsa Sutra and Management of Jwara and its types

a) Detailed description of Chikitsa Sutra and Management of Jwara and its types Etiopathogenesis & relevant Ayurvedic and Modern management of following types of Fevers-Typhoid, Pneumonia, Pleurisy, Influenza, Mumps, Meningitis, Encephalitis, Tetanus, Yellow fever, Plague, Dengue Fever, Chikun Guniya, Leptospirosis, Viral Fever, Anthrax, Masurika (Small pox), Laghu Masurika (Chicken pox), Romantika (Measles).

Chikitsa sutra and Management of the diseases of Rasavaha Srotas

a) Chikitsa sutra and Management of the diseases of Rasavaha Srotas such as – Pandu, Amavata, Madatyaya, Hridroga, Hridshoola, Hypotension, Hypertension, Anaemia, Rheumatoid arthritis.
Chikitsa sutra and Management of the diseases of Raktavaha Srotas

a) Chikitsa sutra and Management of the diseases of Raktavaha Srotas such as - Raktapitta, Kamala, Kumbhamaka, Halimaka, Daha, Mada, Murcha, Sanyasa, Vatarakta, Plihadosha, Yakrut dosha, Haemolytic disorders, Hepatitis, Cirrhosis of Liver, Leukaemia, Kushta, Shvitra, Visarpa, Sheetapitta, Udarda, Kotha and Kshudra Roga.

Knowledge of National Health Programmes

a) Knowledge of National Health Programmes and the relevant Ayurvedic Management of the following diseases enlisted by World Health Organisation - Malaria, Filaria, Kala Azar, Leprosy, Tuberculosis, AIDS.

Introduction of general principles of maintenance of health and management of diseases of following systems of Medicine-

a) Yoga, Naturopathy, Unani, Siddha, Physiotherapy and Rehabilitation.

Diseases of different Endocrine Glands

a) Diseases of different Endocrine Glands - such as Thyroid, Parathyroid, Pituitary, Pancreas and Adrenal glands and their management.

General introduction, types and Management of diseases caused by Vyadhi Kshamatwa Hinata (Immuno deficiency disorders), Auto Immune Disorders.

Description and Management of following Emergency Conditions

a) Description and Management of following Emergency Conditions - Acute Haemorrhage, Hypertensive Emergencies, Acute abdominal pain (Renal colic, Biliary colic, Gastritis, Pancreatitis, Peritonitis and Appendicitis), Acute Abdomen, Anuria/Oliguria, Congestive Heart Failure, Myocardial Infarction/Angina, Shock, Syncope, Convulsions, Hyperpyrexia, Hyperglycaemia, Hypoglycaemia, Status Asthmaticus, Acute Respiratory distress Syndrome, Drowning and Electric shock.
Chikitsa sutra and Management of the diseases of Pranavaha Srotas

a) Chikitsa sutra and Management of the diseases of Pranavaha Srotas such as - Kasa, Shwas, Hikka, Rajakshma, Urakhata, Parshwashoola, Bronchitis, Bronchiectasis, Emphysema and COPDs.

Chikitsa sutra and Management of the diseases of Udakavaha Srotas

a) Chikitsa sutra and Management of the diseases of Udakavaha Srotas such as- Shotha, Jalodara, Trishna, Water & Electrolyte Imbalance.

Chikitsa sutra and Management of the diseases of Annavaha Srotas

a) Chikitsa sutra and Management of the diseases of Annavaha Srotas such as – Agnimandya, Aruchi, Anaha, Atopa, Adhmana, Alasaka, Vilambika, Visuchika, Chardi, Grahani, Amlapitta, Gulma, Shoola, Bhasmaka, Acid peptic disorders.

Principles of treatment and management of Vata Vyadhi

a) Principles of treatment and management of Vata Vyadhi such as - Pakshavadha, Ekaangavata, Sarvangavata, Ardita, Avbahuuka, Kati Graha, Manyastambha, Gridhrasi, Vishwachi, Khalli, Khanja, Pangu, Padaharsha, Padadaha, Vatakantaka, Kroshtukashirsha, Udavarta, Kampavata, Dhatugata and Ashayagata Avarana Vata, other Vata Rogas, Parkinsonism.

b) Nidana and Chikitsa of Urusthambha, Gullian Barrie syndrome, Muscular Dystrophy, Myasthenia Gravis, Motor Neuron Diseases and Neuralgia.
Chikitsa Sutra and Management of Mamsavaha Srotas and Medovaha Srotas

a) Chikitsa Sutra and Management of Mamsavaha Srotas and Medovaha Srotas such as Gandamala, Galaganda, Mamsashosha, Arbuda, Apachi, Prameha, Sthaulya, Karshya, Diabetes Mellitus, Dyslipidaemia.

Chikitsa Sutra and Management of ‘Asthi and Majjavaha Srotas

a) Chikitsa Sutra and Management of ‘Asthi and Majjavaha Srotas such as Asthimajja Vidradhi, Asthisoushirya, Asthi kshaya, Sandhigata Vata, Osteo Arthritis, Osteomyelitis, Osteoporosis, Osteopenia.

Chikitsa Sutra and management of Shukravaha srotas

a) Chikitsa sutra and management of Shukravaha srotas such as Klaibya, shukralpata, shukradosha, kshina shukra, dhwajabhanga.

Chikitsa Sutra and Management of diseases of Mutravaha Srotas

a) Chikitsa Sutra and Management of diseases of Mutravaha Srotas such as Mutrakricha, Mutraghata, Ashmari, Cystitis, Nephritis, Nephrotic Syndrome, BPH, Renal Failure.

Chikitsa Sutra and Management of diseases of Purishavaha Srotas

a) Chikitsa Sutra and Management of diseases of Purishavaha Srotas such as – Atisara, Pravahika, Arsha, Purishaj Krimi, IBS and Ulcerative Colitis.

Chikitsa Sutra and Management of Sexually Transmitted Diseases

a) Chikitsa Sutra and Management of Sexually Transmitted Diseases such as – Phiranga, Puyameha, Upadamsha, lymphogranuloma inguinale, Syphilis, Gonorrhoea.
Manasaroga

a) Introduction, Definition and Management of Kama, Krodha, Lobha, Moha, Mada, Matsarya, Shoka, Bhaya, Vishada, Dainya, Harsha and Pragyaparadha.

b) Manas and Manovahasrotas, Nidana and Chikitsa of the following disorders - Unmada-Apasmara-Atattvabhinivesha, Chittodvega, Vishada, Anxiety disorders, Depression, Somatoform and Mood disorders, Stress induced disorders, Psychosexual Disorders. Importance of Daivavyapashraya, Sattwavajaya, Adravyabhuta Chikitsa. Medhya Rasayana in the management of Manasa Roga. Bhuta Vidya diagnosis and management of graha disorders.

Rasayana

Vajikarana

a) Vajikarana Derivation, definition, synonyms, necessity, benefits, importance of fertility, Symptoms of Shûkra (Semen), Vajikaran Dravya and Aushadhi. Properties, doses, methods of administration, ingredients and methods of formation of Rasayana & Vajikarana formulation. Classification and importance of Vajikarana Dravya

PANCHAKARMA
Introduction on Panchakarma and Shodhana

a) Introduction to Panchakarma, Panchakarma and Shodhana, its importance for promotion of health, prevention and treatment of diseases. Trividha Karma- Purva, Pradhana and Pashchat Karma in relation to Shodhana and their importance. Indications of Shodhana, Shodhana according to Ritu General Principles of doshagati from Koshta to Shaka and vice versa. General precautions (Pariharya Vishaya) for Panchakarma. Specifications of Panchakarma theatre and necessary equipments. Importance of Koshta and Agni Parikshan

Snehana

a) Etymology and Definition of Sneha and Snehana
b) Snehayoni- Sthavara and Jangama: Properties of Sneha dravyas, Snehopag Dravyas
c) General knowledge of Ghrita, Taila, Vasa and Majja with their specific utility and actions Yamaka, Trivrit and Maha Sneha
d) Metabolism of fat
e) Achcha and Pravicharana of Sneha
f) Snehapaka and its importance in Panchakarma

Types of Snehana

Bāhya Snehana :

a) Methods, indications & contraindication of the following types of Bahyasnehana; Mardana, Unmardana, Pādāghāta, Samvāhana, Karna Purana & Akshi Tarpan, Lepa, Talam
Murdhni Taila

a) Siro-Abhyanga, Shiro Seka/dhārā, Siro Pichu and Siro-Basti

Ābhyantara Snehana

a) Three Types of Ābhyantara Snehana: Shodhanārtha, Shamanārtha and Brimhanārtha Snehana, Indications and contraindications for Snehana

Shodhanārtha Snehana

a) Importance and method of Deepan Pāchan and Rookshana in Shodhanārtha Snehana. Properties of Rookshana Dravya. Samyak Rookshana Lakshana
b) Consideration of Agni and Koshtha in Snehana
c) Indication of Different Matra, Various dose schedules for Shodhanārtha Snehana; Hraseeyasi, Hrasva, Madhyama and Uttama Mātrā, Ārohana Mātrā
d) Methods of Shodhanārtha Snehana,
e) Anupāna of Sneha
f) Jeerna and Jeeryaman Lakshana
g) Samyak Yoga, Ayoga and Atiyoga of Snehana, Sneha Vyāpat & their management according to Ayurveda & Modern Medicine
h) Diet and regimen during Snehana

Sadyo Sneha

a) Method of administration, dose fixation and utility

Shamanārtha Snehana

a) Method of administration, dose fixation and utility
Bronhanarth Senhana

a) Method of administration, dose fixation and utility

Avapeedak Sneha

a) Method of administration, dose fixation and utility

Snehana Kārmukata (mode of action)

Special Procedures

a) Takradhara, Udvartanam, Putpāka, Aschotana, Anjana, Gandusha, Kavala, Dhoompāna, Udvartana, Utsādana, Udgharshana, Talapothishil

Svedana

a) Etymology and Definition of Sveda and Svedana
b) Classifications of Sveda/Svedana
c) General Sweda dravya, Properties of Sweda dravyas, Swedaopag dravyas,
d) Indications and contraindications of Svedana
e) Ten Types of Niragni Svedana
f) Knowledge of 13 types of Sagni Svedana and Chaturvidh Svedan
g) Detailed Knowledge with their Utility of the following Svedana procedures: Sankara/Pinda Sveda-Ruksha and Snigdha Sveda Patrapinda Sveda, Jambir Pinda Sveda, Vāluka Sveda, Churna Pinda Sveda, Kukkutand Pinda Sveda, Shashtika Shalipinda Sveda, Nadi Sveda, Bashpa Sveda Ksheer dhooma, Ksheer Seka, Kwath Seka, Avagaha Sveda, Dhanymla Dhara Parisheka Sveda, Pizichil, Upanaha Sveda, Annalepa
h) Local Basti such as Kati Basti, Janu Basti, Greeva Basti and Urobasti
i) General precautions during Sagni Svedana and Methods to protect vital during svedana
j) Samyak Yoga, Ayoga and Atiyoga of Svedana
k) Complications of Svedana and their Management according to Ayurveda & Modern Medicine
l) Diet and management during and after Svedana
m) Parihār Vishaya

143
n) Svedana Kārmukata (Mode of action)
o) General Knowledge about current Sudation techniques like Sauna bath, Steam bath

**Vamana Karma**

a) Etymology, definition and importance of Vamana Karma  
b) Utility of Vamana Karma in health and disease  
c) Indications and Contraindications for Vamana  
d) Knowledge of Koshta and Agni  
e) General knowledge of Vamana and Vamanopaga drugs; properties, actions, preparations, preservation with special reference to Madanphala, Kutaj, Nimba, Yashti, Vacha  
f) Purva Karma of Vamana: Deepan-Pāchana, Abhyantara Snehana and diet  
g) Management of one gap day-Abhyanga & Svedana, diet, special Kapha increasing diet.  
h) Preparation of the patient on Morning of Vamana day  
i) Vamaka Yoga, Anupana, fixation of dose and method of administration  
j) Administration of Vamanopaga Dravya such as milk, sugarcane juice, Yashtimadhu decoction  
k) Lakshana indicating Doshagati during the process  
l) Management during Vamana Karma & observations  
m) Symptoms of Samyak Yoga, Ayoga and Atiyoga of Vamana Karma  
n) Post Vamana management  
o) Types of Shuddhi-Hina, Madhya and Pravara  
p) Peyadi Samsarjana Krama and Tarpanadi Kram with their specific indications  
q) Complication of Vamana and their management with Ayurveda and modern drugs  
r) Pariharya Vishaya  
s) Vamana Karmukata (Mode of action).

**Virechana Karma**

a) Etymology, definition and importance of Virechana Karma  
b) Utility of Virechana Karma in health and disease  
c) Indications and Contraindications for Virechana  
d) Knowledge of Koshta and Agni  
e) Classification of Virechana Drugs, General properties of Virchana dravya
f) General knowledge of single and compound Virechan drugs; properties, actions, preparations, preservation with special reference to Trivrutta, Aragvadha, Eranda, Katuki, Jaipal

g) Purva Karma of Virechana: Deepan- Pachana, Abhyantara Snehana and diet

h) Management of 3 gap days-Abhyanga, Svedana & diet

i) Management on Morning of Virechana day

j) Preparation of Virechana Kalpa, Anupana, dose and method of its administration

k) Method of Virechana Karma and management during Virechana Karma & observations

l) Symptoms of Samyak Yoga, Ayoga and Atiyoga of Virechana Karma

m) Post Virechana management

n) Types of Shuddhi-Hina, Madhya and Pravara and accordingly Samsarjana Krama

o) Complications of Virechana and their management with Ayurveda and modern drugs

p) Pariharya Vishaya

q) Virechana Kārmukatā (Mode of action)

**Basti Karma**

a) Etymology, definition and importance of Basti as Ardha-Chikitsa

b) Utility of Basti Karma in health and disease

c) Basti Yantra- Putaka & Netra, Detailed study of traditional Basti Yantra and their Doshas Knowledge of alternative Basti Yantra-enema can, enema syringe, modified plastic/rubber bag for Putaka, modified plastic netra.

d) Classifications of Basti

e) Karma, Kāla and Yoga Basti schedules along with their utility.

**Niruha Basti**

a) Its etymology, synonyms, definition, classifications, sub-classifications & indications and contraindications.

b) Dose fixation of Niruha Basti according to age

c) Contents and Method of preparation of Niruha Basti dravya

d) Diet

e) Administration of Niruha Basti

f) Pratyāgamana Kāla, Post Niruha Basti management
g) Samyak Yoga, Ayoga and Atiyoga of Niruha.
h) Complication of Niruha Basti and its management according to Ayurved and Modern Medicines
i) Pariharya Vishaya and kala

Anuvasana Basti:

a) Its etymology, synonyms, definition, classifications, sub-classifications & indications and contraindications.
b) Dose fixation of Anuvasan Basti according to age
c) Contents and Method of preparation of Anuvasan Basti dravya
d) Diet
e) Administration of Anuvasan Basti
f) Pratyāgamana Kāla, Post Anuvasan Basti management
g) Samyak Yoga, Ayoga and Atiyoga of Anuvasana.
h) Complication of Anuvasan and its management according to Ayurved and Modern Medicines
i) Pariharya Vishaya and kala
j) Basti Kārmukatā (Mode of action).

Knowledge of following types of Basti

Uttara Basti

a) Its definition, indications and contraindications, Detailed study of traditional Basti Yantra and their Doshas Knowledge of alternative Basti Yantra.
   a. Preparation of patient,
   b. Preparation of Trolley for Uttarbasti,
   c. drug preparation and Fixation of dose,
   d. method of administration in male and females,
   e. observations,
   f. complications and their management
**Nasya**

a) Etymology, definition, Significance of Nasya Karma.
b) Classifications and sub-classifications
c) Knowledge of general Dravya used for Nasya Karma, Shirovirechan Gana, Shirovirechanopag dravyas
d) Indications and contraindications of Nasya
e) Time of administration of Nasya
f) Dose fixation of different types of Nasya
g) Diet and regimen before and after Nasya Karma
h) Administration of Marsha, Pratimarsha, Avapeedaka, Dhoomapana and Dhuma Nasya
i) Symptoms of Samyak-yoga of Nasya,
j) Complication of Nasya and their management
k) Parihār Vishaya
l) Nasya Karmukata (mode of action)

**Raktamokshana**

a) Definition, importance and Types of Raktamokshana
b) General Principles and rules of Raktamokshana
c) Classification of Raktamokshan
d) General Indication and Contra indication of Raktamokshan

**Jalaukavcharana**

a) Knowledge of different types of Jalauka (Leech), Indications and contraindications of Jalaukavcharana, various types of Jalauka. Method of Application, Samyak Lakshan, Complication of Jalaukavcharana and their management with Ayurveda and Modern medicines.

**Pracchāna**

a) Indications and contraindications of Pracchana. Method of Application, Samyak Lakshan, Complication of Pracchana and their management with Ayurveda and Modern medicines
Sirāvedha

a) Indications and contraindications of Siravedha. Method of Application, Samyak Lakshan, Complication of Siravedha and their management with Ayurveda and Modern medicines
b) Knowledge of emergency management of complications such as water & electrolyte imbalance, shock, bleeding per rectal, hemetemsis, epistaxis

Physiotherapy

a) Definition, Utility and Importance of Physiotherapy.
b) Basic Knowledge of Static exercise, Infrared, Short wave diathermy, Electromagnetic therapy, Wax bath therapy, Ultrasonic therapy.

PRACTICALS / CLINICAL TRAINING –

Total Duration of 3 Months posting

a) OPD (for 1-Month): observation of OPD patients, selection of the patients, observation of OPD base Panchakarma procedures
b) IPD (Panchkarma) and Panchakarma Unit – Observation of different procedures of Panchakarma, Assistance to the procedure under guidance of Panchakarma specialist
c) Under clinical posting, each student has to study and write 15-long Cases and 10 short cases in prescribed format
d) Long case Paper - minimum 1 Vaman , 1 Virechan, 1Niruha & Anuvasan Basti, 1Nasya, 1 Raktamokshan
e) Short case paper –Minimum one each of Pinda sweda, Shirodhara,Abhyanga, Netra Tarpan, Bahya Basti, Nadi Sweda etc.

SHALYA TANTRA

(General Surgery)
SHALYA TANTRA

(General Surgery)

Theory Two Papers – 100 Marks Each
Practical - Viva voce – 100 Marks

PAPER – I
Part – A

100 Marks
50 Marks

Definition of Shalya, Shalya Tantra and its importance. Introduction to Shalya Tantra:

a) Historical background and progress made.
   • Target - Fluency in textual reading and comprehension.
   • Preferable targets - Know recent developments and controversies.

Description of Yantra, Shastra, Anushastra:

a) Definition, number, types, uses, Dosha, Guna, Karma. Relevant modern instruments.
   • Target - Basic understanding of the concepts of Yantra and Shastra. Acquaintance with commonly used surgical instruments. Knowledge of textual descriptions.
   • Preferable targets - Knowledge about currently used surgical instruments, their specifications, procurement sources etc.

Nirjantukarana / Sterilization:

a) Methods, types and its role in surgical practice.
   • Target - Basic surgical discipline of maintaining asepsis.
   • Preferable targets - Knowledge of recently developed chemicals, instruments for sterilization.

Sangyaharan / Anaesthesia: Definition and Types.

Local anaesthesia –

a) Drugs, Techniques, Indications, Contraindications, Complications and their Management.
Regional and General anaesthesia-

1) Drugs, Techniques, Indications, Contraindications, Complications and their Management.
   - **Target**-Basic knowledge of the drugs and instruments of anaesthesia. To observe the process of induction, monitoring and recovery.
   - **Preferable targets**- Assisting and handling anaesthesia.

Trividha Karma – Purva Karma, Pradhana Karma and Paschat Karma.

- **Target**- Capability to identify conditions which can affect the outcome of surgery in pre, intra and post-operative period.
- **Preferable targets**- Experience of handling incidents.

Ashtavidha Shastra Karma - Surgical procedures.

- **Targets**- Appreciation and comprehension of concepts and indications of different procedures.
- **Preferable targets** –Hands on experience of surgical procedures.

Yogya - Experimental Surgery.

- **Target** –Appreciation and comprehension of concepts of Yogya. Idea of patient’s safety in experimental training.
- **Preferable targets**- Hands on training on mannequins.

Marma: Nirukti, types, description and importance.

- **Target** –Clinical application of concepts of marma.
- **Preferable targets**- Study of relevance of marma in the light of current anatomical and surgical knowledge.

Kshara and Kshara Karma:

a) Niruki, Pradhanyata, Guna, Dosha, Karma, Prakara, Yogya, Ayogya, Procedure, Upadrava and Chikitsa.

b) Kshara nirmana vidhi, knowledge of Kshara Varti, Taila and Pichu.

c) Kshara Sutra – Preparation, Indications, Contraindications and Method of
application, Complications and their Management.

- **Target** – Capability to identify and practice the use of kshara, kshara sutra in common clinical conditions.
- **Preferable targets** – Broader knowledge of current trends and ongoing researches in kshara application.

Agnikarma: Mahatva, Upakarana, Vidhi, Akruti bheda, Yogya, Ayogya and Upadrava Chikitsa.

- a) Contemporary techniques and tools of Agnikarma.
- **Target** - Capability to appreciate the clinical indications and comprehend Agnikarma procedure.
- **Preferable targets** - Hands on experience of use of cautery in surgical practice.

- **Target**- Capability to appreciate and comprehend clinical indications of Jaloukavacharana and other Raktamokshana procedures.
- **Preferable targets** - Uses of bloodletting in current therapy.

Bandha Vidhi – Prayojana, Dravya, Indications, Contraindications, Prakara, Upadrava, Pichu, Plota, Kavalika and Vikeshika.

- **Target**- Hands on experience of techniques of bandaging.
- **Preferable targets** - New generation of bandaging and splintage tools.

Pranasta Shalya and Nirharana Upaya.

- **Target** – Importance of concepts of Sushruta in the management of Shalya and concerns of patient safety. Identification and management of foreign bodies.
- **Preferable targets** - Current concepts and diagnostic tools of dealing with foreign bodies.

Fluid, Electrolyte, Acid Base Balance and Nutrition:

- a) Introduction of physiology of fluids and electrolytes.
b) Dehydration and over hydration.
c) Specific electrolyte loss, Acidosis, Alkalosis, Symptomatology and Management.
d) Electrolyte changes in specific diseases like pyloric stenosis, intestinal obstruction and anuria.
e) Various replacement fluids in surgery, mode of administration and complications.
f) Nutrition.

- **Target** – Capability to identify and manage fluid and electrolyte imbalance. Ability to administer parenteral fluid.

- **Preferable targets** - Advanced techniques of fluid and electrolyte assessment and management.

**Rakta Mahatwa, Raktasrava / Haemorrhage: Prakara and Lakshana.**

a) Raktastambhana – Haemostasis.
b) Blood Transfusion – Blood groups, Compatibility, Indications, Contraindications and Complications with Management.
c) Component therapy.

- Target-Knowledge of achieving haemostasis in haemorrhage.

- Preferable targets - Detailed knowledge of blood bank techniques.

**Antibiotics, analgesics, anti-inflammatory and emergency drugs in surgical practice.**

- **Target** – Working knowledge of commonly used drugs.

- **Preferable targets** - Advanced pharmacological study of the above drugs

**Diagnostic techniques –**

a) X-ray, Imaging techniques, Ultrasonography, CAT Scan, MRI, Biopsy / Cytological study.

- **Target**- Knowledge of proper indications for optimum investigational tools and their interpretation.

- **Preferable targets** - Capability to work independently in the field of diagnostic techniques.
Shat Kriyakala in surgical practice.

- **Target**: Clinical utility of the concepts.
- **Preferable targets**: Applied aspects of Kriyakalas in the light of current concepts of pathogenesis.

**Nirukti, Nidana, Samprapti, Prakara, Lakshana, Sadhya-asadhyata, Upadrava and Chikitsa of the following disorders.**

a) Vranashotha - Inflammation
b) Vidhradi - Abscess
c) Pidika - Boils
d) Nadi Vrana - Sinus / Fistulae
e) Vrana Granthi - Keloid / Hypertrophic scar
f) Marmagata - Shock
g) Kotha – Gangrene and Principles of Amputation.
h) Granthi - Cyst
i) Arbuda - Tumour

- **Target**: Clinical application of the concepts.
- **Preferable targets**: Hands on experience of management of different conditions.

**Vrana – Nirukti and Prakara**

b) Vrana Chikitsa – Pathya-aphathy and Shashti Upakrama,Vranitagara and Rakshakarma.
c) Agantuja Vrana :
   II. Management of bites and stings.
d) Dagdha Vrana – Burns and scalds.
e) Ulcer - Types and their management.
f) Wound healing stages and their management.
g) Pramehapidaka - Diabetic carbuncle and wounds.

- **Target** - Clinical application of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

- **Target** - Clinical application of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

- **Target** - Clinical application of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Sira Vikara** - Venous disorders – Superficial and Deep venous thrombosis, Haemangioma, Varicose veins - Diagnosis and their Management.

- **Target** - Clinical application of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

- Target - Clinical application of the concepts.
- Preferable targets - Hands on experience of management of different conditions.

**Snayu Vikara** –

a) Diseases of tendons and ligaments – Tennis elbow, Ganglion and their Management.

- **Target** - Clinical application of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.
Care of AIDS - HIV and hepatitis infected patients.

- Target - *Knowledge of safety precautions.*

**PAPER – II**

<table>
<thead>
<tr>
<th>Part – A</th>
<th>50 Marks</th>
</tr>
</thead>
</table>

**Bhagna – Skeletal injuries: Prakara including pathological fracture, Samanya Lakshana, Upadrava and Chikitsa.**

a) Description of fracture of following bones with Clinical features, Diagnosis, Complications and Management – scapula, clavicle, humerus, radius, ulna, femur, patella, tibia and pelvis bones.
b) Sandimoksha - Dislocation: Dislocation of following joints with Clinical features, Diagnosis, Complications and Management of shoulder, elbow and hip.

- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of bone:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Congenital anomalies, Osteomyelitis, Cysts, Tumours and Tuberculosis.

- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Cranio-cerebral injuries:**

a) Mechanism, Pathology, Classification, Investigations, Complications and primary management.

- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Spine:**

a) Mechanism, Pathology, Classification, Investigations, Complications and primary management of Tuberculosis, Ankylosing Spondylitis and Disc prolapse.
• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of breast:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Sthana Vidradhi - Breast abscess and Sthana Arbuda - Breast tumours.

• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of breast:**

a) Diseases of chest: Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Chest injury, Pleural effusion, Pleurisy and Tumours.

• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Gulma Roga** –

a) Nidana, Prakara, Lakshana, Upadrava and Chikitsa.

**Shoola vyadhi** –

a) Nidana, Prakara, Lakshana, Upadrava and Chikitsa.

• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of acute abdomen.

**Udara Roga:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Jalodara - Ascites, Chidrodara – Perforation, Peritonitis and Badhagudodara-Intestinal obstruction.
• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of stomach and duodenum:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Pyloric Stenosis, Peptic Ulcer and Tumours.
• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of small intestine:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Tuberculosis, Obstruction and Perforation.
• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of large intestine –**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Tuberculosis, Obstruction, Perforation, Tumours, Appendicitis, Crohn’s disease and Ulcerative Colitis.
• **Target** - Clinical utility of the concept.
• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Rectum and Anal Canal –**

• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Abdominal injuries and their management.**

• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Part – B**

**50 Marks**

**Diseases of Liver:**

• **Target** - Clinical utility of the concepts.

• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Gallbladder:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Cholecystitis, Cholelithiasis, Obstructive jaundice and Tumours.

• **Target** - Clinical utility of the concepts.

• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Pancreas:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Pancreatitis, Cysts of Pancreas and Tumours.

• **Target** - Clinical utility of the concepts.

• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Spleen –**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Pleehodara – Splenomegaly and Splenic rupture.

• **Target** - Clinical utility of the concepts.

• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Kidney and Ureters –**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Congenital anomalies, Polycystic kidney, Injuries, Perinephric abscess, Calculus and Neoplasms.
- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Urinary bladder** –

a) Aetiology, pathogenesis, classification, clinical features, diagnosis, complications and management of congenital anomalies, injuries, Ashmari - Vesical calculus, Cystitis and Neoplasms.

- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Mutraghata and Mutrakrichra** –

a) Aetiology, pathogenesis, classification, clinical features, diagnosis, complications and management. Retention of urine.

- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Prostate** –

a) Aetiology, pathogenesis, classification, clinical features, diagnosis, complications and management of Prostatitis, Prostatic abscess, Benign Enlargement of Prostate and Carcinoma of Prostate.

- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Urethra** –

a) Aetiology, pathogenesis, classification, clinical features, diagnosis, complications and management of Urethritis, Stricture and Rupture.

- **Target** - Clinical utility of the concepts.
- **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Penis:**

a) Aetiology, pathogenesis, classification, clinical features, diagnosis, complications and management of congenital anomalies, Niruddhaprakasha Phimosis, Parivartika Paraphimosis, Avapatika Prepuceal ulcer, Arbuda Tumours and Lingarsha Penile Warts.
• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Diseases of Scrotum and Testis:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Epididymo-orchitis, Epididymal cyst, Scrotal filariasis, Shukrashmari - Seminal calculus, Torsion of testis, Ectopic testis, Undescended testis and Tumours.

**Vriddhi Roga:**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Mutavridhi – Hydrocele.

• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**Antra Vriddhi –**

a) Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Management of Hernia - Inguinal, Femoral, Epigastric, Umbilical, Incisional and rare forms of Hernia.

• **Target** - Clinical utility of the concepts.
• **Preferable targets** - Hands on experience of management of different conditions.

**PRACTICALS**

**Content of Practicals:**

a) Identification, uses, demonstration of surgical instruments and methods of sterilization.

b) Training of case taking, bed side clinicals and case presentation.

c) Demonstration and Practical training in Anaesthesia.

b) Training to develop skills in following Parasurgical and other procedures
   
i. Kshara Karma
   
ii. Agnikarma
   
iii. Kshara Sutra
   
iv. Raktamokshana
v. Application of bandages and splints  
vi. Catheterization  
vii. Wound management procedures like Parisheka and Patradana  
viii. Ryle’s tube aspiration  
ix. Injections - Intramuscular / Intravenous / Subcutaneous / Intradermal  
x. Incision and drainage of abscess  
xi. Suturing of open wounds

**Observation of following procedures**

a) Circumcision  
b) Hydrocele  
c) Hernial repair  
d) Vasectomy  
e) Haemorrhoidectomy  
f) Fistulectomy  
g) Fissurectomy  
h) Appendecectomy  
i) Cholecystectomy

**Training of Surgical Emergencies and Management.**

**Clinical Training (Indoor and Outdoor)**  
09 Months  
Shalya (Samanya)  03 Months (atleast one month in OT)  
Shalya (Kshara and Anushastra Karma)  03 Months (atleast one month in OT)  
Asthi and Sandhi Chikitsa (Orthopaedics &Trauma)  02 Months  
Anaesthesia  15 days  
Radiology  15 days

SHALAKYA TANTRA

(Head & Neck including Ophthalmology, Ear, Nose, Throat & Dentistry)
NETRA ROGA VIGYAN

Paper I

Introduction

a) Shalakyatantra nirukti, Parichayam, Ithihasam
b) Netra rachana shariram (Mandala, Patala, Sandhi, Drushti Vichara) and Netra Kriya Sharira alongwith modern anatomy of Eye.
c) Eye examination and knowledge of basic instruments/equipments required for examination of Eye.
d) Netrarognanam – Samanya Hetu (Nija and agantuja), Purvarupa, Samprapti, Rupa and Chikitsa.
e) Classification of Netraroga and its importance.

Netra Samanya and Vishishta Chikitsa - Kriya Kalpa

a) Netra and Chakshu swasthya hitkara Dinacharya,Ritucharya,Aahara evam Vihara.
b) Kriya-kalpa-Seka, Aschyotana, Pindi, Vidalaka, Tarpana, Putapaka, Anjana and importance of Panchkarma in Netra Chikitsa.
c) Basic fundamentals of Netra Shastra Chikitsa e.g. Purva – Pradhana - Paschat karma, Ama-Pachyaman-Pakva Vrana shotha, Vranitopasana, Pranashtashalya, & Vranbandhana. Methods and concepts of sterilization, asepsis and antisepsis as per ancient and modern point of view.
d) Basic applied knowledge of Ashtavidha shastrakarma, agni, kshara, raktamokshana in Nerta rogas.
e) Essential diagnostic and therapeutic modern pharmacological agents required in Netra Chikitsa
Sandhigata Roga (Diseases of junctional areas of eye)

a) Number of sandhigata rogas, detailed etiology, pathology, clinical features and management of Pooyalasa and Srava Rogas.
b) Brief Study of krimi granthi, Parvani and Alaji Rogas.
c) Study of Acute and Chronic Dacryocystitis, Epiphora, Blepharitis including their aetiology, pathology, signs & symptoms, differential diagnosis and medical & surgical management.

Vartmagata Roga (Diseases of Lids)

a) Number of vartmagata rogas, and detailed knowledge of etiology, pathology, clinical features and management of Anjananamika, Utsangini, Lagana, Vatahata vartma, Pakshma kopa, Sikta vartma, Pothaki, Klinna vartma, Krichhronestaelana and Kukuna eases of Vartma.
b) Brief Knowledge of Vartmarbuda, Utklishta vartma, Nimesh, Pakshmashata, Vartmarsha
c) Knowledge of Hordeolum, Ptosis, Trachoma, Trichiasis, Entropion, Ectropion including their Etiology, signs and symptoms differential diagnosis and medical & surgical management.

Shuklagata Roga (Diseases of sclera and conjunctiva)

a) Number of Shuklagata rogas, detailed knowledge of etiology, pathology, clinical features and management of Arma, Arjuna and Shuktika
b) Brief Knowledge of Sira pidika, Sira jala, Pishtaka, Balasgrathita.
c) Study of Pterygium, Scleritis, Episcleritis, Sub-Conjunctival Hemorrhage including their Etiology, signs and symptoms differential diagnosis and medical & surgical management.

Krishnagata Roga (Diseases of cornea and uvea)

a) Number of krishnagata rogas, detailed knowledge of Etiology, Pathology, Clinical features, differential diagnosis, complications and Management of Savrana /kshata Shukla (Shukra), Avrana shukra (Shukla)
b) Brief knowledge of Sira shukla, Akshipakatyaya and Ajakajata.
c) Knowledge of Corneal ulcer, Corneal Opacity, Uveitis, Acute Iridocyclitis,
Staphyloma, their aetiology, pathology, symptoms, differential diagnosis, complications and management.

**Sarvagata Roga (Diseases effecting all parts of eye)**

a) Number of Sarvagata rogas, detailed knowledge of etiology, pathology, clinical features, complications, differential diagnosis and Management of Abhishyanda, Adhimantha, Hatadhimantha and Shushkakshipaka.

b) Brief Knowledge of Amloshit, Vata paraya, Anyato vata, Sashopha & Ashophakshipaka- Pilla roga, Siropata and Siraharsha.

c) Knowledge of Conjunctivitis, Glaucoma, Dry Eye Syndrome including their etiology, pathology, clinical features, differential diagnosis, complications and their management.

**Drishtigata Roga (vision disorders)**

a) Number of Drishtigata rogas detailed knowledge of etiology, pathology, clinical features, differential diagnosis and management of Timira, Kacha and Linga nasha.

b) Brief Knowledge of Abhighataja lingnasha, sanimittaja & Annimittaja Lingnasha Doshandhya/Kaphavidagdha drishti, Naktandhya, Ushna vidagdha drishti, Pittavidagdha drishti, Dhumadarshi, Hriswajadya, Gambhirika, Nakulandhya, Nayanabhighata.

c) Knowledge of Refractive errors, Cataract including their etiology, pathology, clinical features, differential diagnosis, complications and their management.

d) Study of Eale’s disease, Hypertensive & Diabetic Retinopathies, Age related Macular degeneration, Strabismus, Retinitis pigmentosa, Night blindness, Amblyopia, Central serous retinopathy, Optic Neuritis and Optic atrophy

**Miscellaneous Diseases**

a) Xerophthalmia and other malnutritional eye disorders.

b) Knowledge of ocular trauma and their management.

c) Introduction to Eye bank, Eye donation, Corneal Transplantation

d) Preventive Ophthalmology and Community Ophthalmology
SHIRA - KARNA- NASA- MUKHA ROGAS

PAPER II  100 Marks

Samanya Chikitsa

a) Study of therapeutic procedures like Sveda, Kavala, Gandusa, Dhuma, Murdhni Taila, Nasya, Pratisarana, Karna Purana, Karna prakshalana, nasa prakshalana Mukha Lepa.
b) Ashtavidha shastrakarma and anushastrakarma used in the treatment of Shira, Karna, Nasa evam Mukha Rogas.

Shiro Roga

a) Importance and Superiority of Shira.
b) Number, general etiology, pathology and cardinal features of shiro rogas and kapalgata rogas along with their common line of management/treatment.
c) Detailed study of Vataja, Pittaja, Kaphaja shirashoola, Suryavarta, Ardhavabhedaka, Khaliya, Palitya.
d) Brief Knowledge of Raktaja shiraha shoola, Krimija shiraha shoola, Kshayaja shiraha shoola & Sannipataja shiraha shoola, Ananta vata, Indralupta, Darunaka.

Karna Roga

a) Detailed study of Rachana and Kriyasharir of Karna (Ear) & Shravanendriya as per Ayurvedic and modern view, Examination of Ear along with instruments/equipments required in Ear examination.
b) Detailed study of etiology, pathology, classification, clinical features and management of diseases of Karna – karna shool, karna nada& shweda, Badhirya, Karnastrava, karna pratinaha, pootikarna, karnagothaka, karnavidradhi.
c) Brief Knowledge of karna kandu, karnapaka, karnarsha, karnarbuda, krimikaran & karnapali rogas, Karna sandhana (Auroplasty), fundamentals, method and Vaikritpaham.
d) Detailed study of Otalgia, ASOM, CSOM, Deafness, wax including their etiology, pathology, clinical features, differential diagnosis, complications and medical & surgical management.
e) Brief Knowledge of Otomycosis, Otosclerosis, Tinnitus, Vertigo, Foreign body in ear and Noise pollution.

Nasa Roga

a) Detailed study of Rachana and Kriyasharir of Nasa (Nose and paranasal sinuses)& Ghranendriya as per Ayurvedic and modern view, Examination of Nose. along with instruments/equipments required in Nose examination.

b) Detailed study of Pratishyaya, Dushta pratishyaya, Nasanaha, Kshavathu, Nasagata raktapitta & Nasarsha.

c) Brief Knowledge of Putinasa, Bharangshathu, Peenasa, Apeenasa, Nasarbuda, Nasashotha, Dipta, Nasa Sandhana.

d) Detailed study of Rhinitis & Sinusitis Epistaxis, Nasal Polyp, DNS, Foreign body including their Etiology, pathology, clinical features differential diagnosis and medical & surgical management.

e) Brief Knowledge of Nasal trauma, Tumours of nose and Para nasal sinuses.

Mukha Roga (Diseases of Oral Cavity)

a) Detailed study of Rachana and Kriyasharir of Mukha Rogaadhishthana– oshtha, dantamoola, danta, jivha, talu, gal, sarvasara (Oral cavity ) as per Ayurvedic and modern view along with their Basic examination including instruments/equipments required for the examination.

b) Mukha and Danta Swasthya as per ancient and modern concepts including prevention of malignancy of oral cavity.

c) Number and general aetiology, pathology, cardinal features of Mukha rogas along with their common line of management/treatment.

Oshtha Roga (Diseases of Lips)

a) Detailed study of Etiology, pathology, classification, clinical features and management of - Oshtha prakopa, khandoshtha

b) Brief Knowledge of Gandalaji, Jalarbuda, Kshataja Oshthaparakupa

c) Knowledge of cleft lip.
**Dant Mula Gata Roga (Diseases of Periodontia)**

a) Detailed study of Etiology, pathology, classification, clinical features and management of - Shitada, Dantaveshta, Upakush, Danta Nadi, Danta Vidradhi, Adhimansa

b) Brief Knowledge of dantapupputaka, Saushira, Mahasaushira, Danta Vaidarbha, Paridara, Vardhana.

c) Detailed study of Etiology, pathology, classification, clinical features and management of Gingivitis, Apical abscess, Periodontitis (Pyorrhoea).

**Danta Roga (Dental Diseases)**

a) Detailed study of Etiology, pathology, classification, clinical features and management of Daalan, Krimidanta, Dantaharsha, Danta sharkara, Hanumoksha

b) Brief Knowledge of karala, Bhanjanak, Kapalika, Shyava Danta, Danta bheda,

c) Danta chaal, Adhidanta, Danta Utpatana including Jalandhar bandha method and Danta Purna.

d) Knowledge of Dental Caries, Dental Tartar & Tooth extraction.

**Jihwa Gata Roga (Diseases of Tongue)**

a) Detailed study of Etiology, pathology, classification, clinical features and management of - jivha kantaka (vataja, pittaja and kaphaja)

b) Brief Knowledge of Upajihva, Adhijihva, Alasa.

c) Knowledge of Glossitis, Tongue Tie, Ranula, Benign and Malignant Tumors of tongue.

**Talu Roga (Diseases of Palate)**

a) Detailed study of Etiology, pathology, classification, clinical features and management of - Gala shundika, Talushosha, Talupaka

b) Brief Knowledge of Talupupputa, Adhrusha, Kacchapa, Talvarbuda, Mamsasanghata.

c) Knowledge of Cleft palate, palatitis, uvulitis and tumours of the palate.

**Kantha and Gala gata Roga (Diseases of Pharynx & Larynx)**

a) Detailed study of Etiology, pathology, classification, clinical features and
management of - Tundikeri, Kantha shaluka, Gilayu, Galaganda, Swrabhedha, Galavidradhi.

b) Brief Knowledge of Rohini, Galashotha, Kantharbuda, Kanthavidradhi, Galarbuda Galaugham, Vrindam, Ekavrindam, Valaya, balasa, Shataghni, Swaraghna.

c) Detailed study of Etiology, pathology, classification, clinical features and management of - Pharyngitis, Laryngitis, Tonsillitis & Adenoiditis

d) Brief Knowledge of foreign body in the throat, Carcinoma of Larynx & Pharynx, Dysphagia Diphtheria & diseases of salivary glands.

**Sarvasara Mukha Roga (Generalised mucosal affections of the oral cavity)**

a) Detailed study of Etiology, pathology, classification, clinical features and management of Sarvasara mukhapaka

b) Brief Knowledge of urdhvaguda, putivaktrata, mukharbuda

c) Detailed Knowledge of Stomatitis.

**VI Miscellaneous Diseases**

a) National Programme for Prevention and Control of Deafness.

**PRACTICAL**

**Content of Practical**

b) Training in para- surgical procedures-
   i. Kshara karma
   ii. Agnikarma
   iii. Raktamokshana
   iv. Training of ward procedures. Application of bandages, wound management
   v. Training of minor procedures (ashtavidha)
   vi. Observation of surgical procedures in Shalakya

**Clinical Training 04 Months (OPD, IPD OT and kriya kalpa)**

RESEARCH METHODOLOGY
AND MEDICAL STATISTICS
PART – A  
Research Methodology  
30 Marks

Brief historical background of research in Ayurved and contemporary medical science

Evidences of researches in ayurvedic classics

Etymology, definitions and synonyms (Anveshana, Gaveshana, Prayeshana, Anusandhan and Shodha) of the word Research

Research in Ayurved - Scope, need, importance, utility

Types of Research (familiarization of the terms)

  a)  Pure and Applied
  b)  Qualitative, Quantitative and Mixed

Observational and interventional.

Research process (Importance of each steps in brief)

  a. Selection of the topic
  b. Review of the literature
  c. Formulation of Hypothesis
  d. Aims and Objectives
  e. Materials and methods
  f. Observations and results
  g. Methods of communication of Research

Research tools – Role of the pramanas as research tools

The concept and importance of ethics in research

Concept of Evidence Based Medicine and Scientific Writing

Importance of IT in data mining and important research data portals concerned with
Part – B Medical-Statistics

Marks

Definition, scope and importance of the Medical statistics

Common statistical terms and notations

a) Population
b) Sample
c) Data
d) Variable
e) Normal distribution

Collection and Presentation of data

a) Tabular
b) Graphical
c) Diagrammatical

Measures of location

a) Average
b) Percentile

Measures of Central Tendency

a) Arithmetic mean
b) Median
c) Mode

Variability and its measurement

a) Range
b) Standard deviation
c) Standard error
Introduction to probability and test of significance

Parametric and non parametric tests

Introduction to commonly used statistical soft-wares.

ATTENDANCE

A minimum 75% of attendance in subject (Both theory and practical) shall be essential for appearing the examination. A minimum 5-10% of attendance can be permitted on medical grounds with the consent of Head of the Institution with valid proof.

DECLARATION OF RESULTS:

Results to be announced as per Pondicherry University norms.

NOTE: It is compulsory to follow the Academic calendar as per Pondicherry University.
CHAPTER - V

COMPULSORY ROTATORY INTERNSHIP

The duration of Compulsory Rotatory Internship shall be *one year* and the student shall be eligible to join the compulsory internship programme after passing all the subjects from first to the final professional examination and the internship programme shall be start after the declaration of the result of final professional examination.

**The Internship Programme and time distribution shall be as follows:-**

The interns shall receive an orientation regarding programme details of internship programme along with the rules and regulations, in an orientation workshop, which shall be organised during the first three days of the beginning of internship programme and a work book shall be given to each intern, in which the intern shall enter date-wise details of activities undertaken by him or her during his or her training;

Every intern shall provisionally register himself with the concerned State Board or Council and obtain a certificate to this effect before joining the internship program;

The daily working hours of intern shall be not less than eight hours;

Normally one-year internship programme shall be divided into clinical training of six months in the Ayurvedic hospital attached to the college and six months in Primary Health Centre or Community Health Centre or Rural Hospital or District Hospital or Civil Hospital or any Government Hospital of modern medicine:

Provided that where there is no provision or permission of the State Government for allowing the graduate of Ayurveda in the hospital or dispensary of Modern Medicine, the one-year Internship shall be completed in the Hospital of an Ayurvedic College.

The clinical training of six or twelve months, as case may be, in the Ayurvedic hospital attached to the college or in non-teaching hospitals approved by Central Council of Indian Medicine shall be conducted as follows-
Six months training of interns shall be carried out with an object to orient and acquaint the intern with the National health Programme and the intern shall undertake such training in one of the following institutes, namely

- Primary Health Centre
- Community Health Centre or District Hospital
- Any recognised or approved hospital of modern medicine
- Any recognised or approved Ayurvedic hospital or Dispensary

Provided that all the above institutes mentioned in clauses 1 to 2 shall have to be recognised by the concerned University and concerned Government designated authority for taking such training.

**Detailed Guidelines for internship programme:**

The guidelines for conducting the internship clinical training of six or twelve months in the Ayurvedic Hospital attached to the college and the intern shall undertake the following activities in the respective department as shown below-

**Kayachikitsa** - The duration of internship in this department shall be two months or four months with following activities:-

a) All routine works such as case taking, investigations, diagnosis and management of common diseases by Ayurvedic Medicine;

b) Routine clinical pathological work such as haemoglobin estimation, complete haemogram, urine analysis, microscopic examination of blood parasites, sputum...
examination, stool examination, Mutra evam Mala pariksha by Ayurvedic method, interpretation of laboratory data and clinical findings and arriving at a diagnosis
c) Training in routine ward procedures and supervision of patients in respect of their diet, habits and verification of medicine schedule;

**Panchakarma** - The duration of internship in this department shall be fifteen days or one month with following activities-

a) Panchakarma procedures and techniques regarding purva karma, pradhan karma and pashchat Karma;

**Shalya** - The duration of internship in this department shall be one month or two months and intern shall be practically trained to acquaint with the following activities-

a) Diagnosis and management of common surgical disorders according to Ayurvedic principles;
b) Management of certain surgical emergencies such as fractures and dislocations, acute abdomen;
c) Practical training of aseptic and antiseptics techniques, sterilization;
d) Intern shall be involved in pre-operative and post-operative managements;
e) Practical use of anesthetic techniques and use of anesthetic drugs;
f) Radiological procedures, clinical interpretation of X-ray, Intra Venous Pyelogram, Barium meal, Sonography and Electro Cardio Gram;
g) Surgical procedures and routine ward techniques such as-
   i. Suturing of fresh injuries;
   ii. dressing of wounds, burns, ulcers and similar ailments;
   iii. incision of abscesses;
   iv. excision of cysts;
   v. venesection;
   vi. application of Ksharasutra in ano rectal deseases;

**Shalakya** - The duration of internship in this department shall be one month or two months and intern shall be practically trained to acquaint with the following activities:-

a) Diagnosis and management of common surgical disorders according to Ayurvedic principles;
b) Intern shall be involved in Pre-operative and Post-operative managements;
c) Surgical procedures in Ear, Nose, Throat, Dental problems, Ophthalmic problems;
d) Examinations of Eye, Ear, Nose, Throat and Refractive Error with the supportive instruments in Out-Patient Department;
e) Procedures like Anjana Karma, Nasya, Raktamokshan, Karnapuran, Shirodhara, Putpak, Kawal, Gandush at Out-Patient Department level;

**Prasuti evam Striroga**- The duration of internship in this department shall be one month or two months and intern shall be practically trained to acquaint with the following activities:-

a) Antenatal and post-natal problems and their remedies, antenatal and post-natal care;
b) Management of normal and abnormal labours; and
c) Minor and major obstetric surgical procedures;

**Balroga**- The duration of internship in this department shall be fifteen days or one month and intern shall be practically trained to acquaint with the following activities:-

a) Antenatal and post-natal problems and their remedies, antenatal and post-natal care also by Ayurvedic principles and medicine;
b) Antenatal and post-natal emergencies;
c) Care of new born child along with immunization programme;
d) Important pediatric problems and their Ayurvedic managements.

**Internship training in Primary Health Centre or Rural Hospital or District Hospital or Civil Hospital or any Government Hospital of modern medicine or Ayurvedic Hospital or Dispensary**-

During the six months internship training in Primary Health Centre or Rural Hospital or Community Health Centre or District Hospital or any recognised or approved hospital of Modern Medicine or Ayurvedic Hospital or Dispensary, the interns shall –

a) Get acquainted with routine of the Primary Health Centre and maintenance of their records;
b) Get aquatinted with the diseases more prevalent in rural and remote areas and their management;
c) Involve in teaching of health care methods to rural population and also various immunization programmes;

d) Get acquainted with the routine working of the medical or non-medical staff of Primary Health Centre and be always in contact with the staff in this period;

e) Get familiaried with the work of maintaining the relevant register like daily patient register, family planning register, surgical register and take active participation in different Government health schemes or programmes;

f) Participate actively in different National Health Programmes implemented by the State Government;

Participate actively in casualty section of the hospital in identification of casualty and trauma cases and their first aid treatment and also procedure for referring such cases to the identified hospitals.

Assessment:

After completing the assignment in various Sections, the interns have to obtain a completion certificate from the head of the Section in respect of their devoted work in the Section concerned and finally submitted to Principal or Head of the institute so that completion of successful internship can be granted.

Migration of Internship

The Migration of internship shall be with the consent of the both college and University, in case of migration is between the colleges and two different Universities.

a) In case migration is only between colleges of the same University, the consent of both the colleges shall be required.

b) The migration shall be accepted by the University on the production of the character certificate issued by institute or college and application forwarded by the college and University with a “No Objection Certificate”, as case may be.
CHAPTER - VI

SCHEME OF EXAMINATION

The theory examination shall have minimum twenty per cent. short answer questions having maximum mark up to forty per cent. and minimum four questions for long explanatory answer having maximum marks up to sixty per cent. and these questions shall cover entire syllabus of subject.

The minimum marks required for passing the examination shall be fifty per cent. in theory and fifty per cent. in practical or clinical or viva-voce, wherever applicable separately in each subject.

A candidate obtaining (75%) seventy-five per cent marks in the subject shall be awarded distinction in the subject.

The supplementary examination shall be held within six months of regular examination and failed students shall be eligible to appear in its supplementary examination, as the case may be.

Each student shall be required to maintain seventy-five per cent. attendance in each subject (in theory and practical) for appearing in the examination and in this regard a class attendance card shall be maintained for each student for the different subjects and the Principal shall arrange to obtain the signature of the students, teachers at the end of each course of lectures and practical instructions and send the cards to each Head of the Department for final completion before the commencement of each examination.

In case a student fails to appear in regular examination for cognitive reason, he or she shall appear in supplementary examination as regular students, whose non-appearance in regular examination shall not be treated as an attempt and such students after passing examination shall join the studies with regular students and appear for next professional examination after completion of the required period of study.

The following facts may be taken into consideration in determining classwork in the subject

a) Regularity in attendance;
b) Periodical tests; and
c) Practical work.
