(Compulsory)

17. Case Study
   Eco Tourism

Eco Tourism is defined as 'responsible travel to natural areas that conserves the environment and improves the well-being of local people'.

Eco Tourism is about uniting conservation, communities and sustainable travel. This means that those who implement and participate in eco tourism activities should follow the following eco tourism principles:

(a) Minimise impact.
(b) Build environment and cultural awareness and respect.
(c) Provide positive experiences for both visitors and hosts.
(d) Provide direct financial benefits for conservation.
(e) Provide financial benefits and empowerment for local people.
(f) Raise sensitivity to host countries political, environmental and social climate.

Questions:
(i) What are the implications of above principles?
(ii) How does Eco Tourism be sustained?
