17. Case Study.

   Grant Telephony Industry grew enormously because the new users embraced mobile technology. The cost required for the new mobile phone was very high because carriers heavily subsidized handset and retailer costs to make it easier for new user to sign up for new service. As a result carriers face a pressing need to maximize their average return per user (ARPU) by retaining their best customer for as long as possible. This challenge is particularly acute in the face of showing growth due to market saturation and the impending expiration of many original customers' service plans.

   Answer the following:

   (a) State at least four goals that the company must adopt so that it keeps old customers and adds the new Customers.

   (b) Give strategies to implement these goals.

   (c) State and explain the purpose of Sales Force Automation (SFA).
