Pondicherry University adheres to the Energy Efficiency Standards and taken several steps as listed below

1. Pondicherry University has fitted LED motion-sensor lights in the all new existing buildings from June 2020 onwards.
2. About 100 Nos of 250 W streetlights have been replaced with 90W energy-efficient lights in 2021
3. Replaced with 8W/20W 4 feet LED energy efficient fitting -total numbers 460 and LED 7/9W pin type total numbers 131 for the year 2020-21
4. Energy metering for each building of a total of 131 was fixed in 2021 for the energy audit, energy conservation, and efficiency to reduce energy use.
5. Already 1630 tonne capacity energy efficient VRF Air Conditioning is working in 9 University campus buildings.
6. It is proposed to install energy-efficient ACs, Fans, LEDs, and water pumps in the new building, -which is under construction.
7. Time-to-time awareness programs on energy conservation and efficiency have been provided on the campus through workshops, seminars, posters, and stickers.
