PONDICHERRY UNIVERSITY

R. VENKATARAMAN NAGAR

PONDICHERRY - 605 014.

FOREWORD

Pondicherry University has made significant progress in a short span of 11 years in establishing itself as one of the leading seats of higher learning and continued to do so during the year under report. A resume of all the activities and other achievements of the University during the year 1996-97 are summarized in the chapter "Highlights of the year" and the details are elaborated in the subsequent chapters.

Pondicherry University has introduced 5 Year Integrated M.Sc. Course in Science subjects comprising Physics, Chemistry and Mathematics in addition to the already introduced 5 Year Integrated M.A. Programme in Tamil. The ambition is to catch the Scholars at the young stage, to train them as dedicated Scientists, fully involving their talents.

Pondicherry University has also commissioned "Internal Quality Assurance Cell" during the year 1996-97 and it has started functioning by getting evaluation reports from teachers and students. It is proposed to develop it as a full-fledged organisation to improve the quality of education in all respects.

The academic sector-schools and departments - continued to maintain the high standards inspite of several constraints for their teaching and research. The University faculty strength which is hardly 141, has already attracted support for more than 93 research projects from various national and international agencies and their output in terms of quality publications are impressive. As many as 149 papers have been published by them during the course of the year. Besides, they have been invited to give lectures by various Universities and National Institutes. As many as 79 teachers have participated and presented papers in nearly 107 seminars and symposia held both in India and abroad. The University itself had organized 31 short term courses, seminars, symposia and conferences for the benefit of others.

The University administration including the Controller of Examinations Wing which caters to 20 affiliated institutions besides our University and its constituent departments and other units has been doing an excellent work and their record of fault-free functioning is indicative of their commitments.

The inventory of academic programmes listed in chapter 2, considering the early stage of its growth, this University can be considered as impressive in terms of diversity and wide choice available to the aspiring students.

We continue to have both annual and semester patterns of study though we have recently switched over to semester pattern in all of our affiliated institutions, during the year under report. The University examinations are conducted for all the students of both affiliated institutions and the University and results are declared as per the preplanned schedule.

The chapter 3 outlines the major developmental activities both in the realm of academic programmes and in the area of infrastructure. Several buildings and campus amenity works undertaken earlier have been successfully completed this year and put to use immediately.

In the subsequent chapters the details of the staff strength, extra curricular and extension activities, the special efforts made to encourage underprivileged students and the like are given.

Being a young University, the earlier efforts made to organize new schools and departments are to be consolidated and strengthened with various infrastructure and facilities. The report will highlight our efforts in this regard.

I thank the authorities of the University, the teaching and non-teaching staff, the students, the UGC, the Government of India and above all the Pondicherry Community for their co-operation and support.

Vice-Chancellor

One of the important objectives of the programme of the University Grants Commission is to enable those belonging to the weaker sections of the society benefit from the facilities provided for them. The Commission has sanctioned a Special Cell as a measure to strengthen the implementation machinery which plans the programmes for the welfare of SC/ST communities in this University.

The Special Cell was started in 1987 with the following staff which evaluates and monitors the schemes to be implemented:

Deputy Registrar 1, Section Officer 1, Statistical Assistant 1, Steno-Typist 1, Junior Assistant 1 and Peon 1

This cell took all measures to find out whether all the schemes of the University pertaining to the welfare of the SC/ST and Physically Handicapped categories are fully implemented. In addition, this cell also looked after the redressal of grievances of the SC/ST employees in this University.

8.2. Reservation For SC/ST And Physically Handicapped Candidates

As per the orders of the Government of India and the guidelines of the UGC with regard to reservation of seats for admission to candidates belonging to Scheduled Castes, Scheduled Tribes and Physically Handicapped categories, 15%, 7.5% and 3% of the total number of seats in each course have been reserved for Scheduled Caste, Scheduled Tribes, and Physically Handicapped students respectively. There is also provision for interchangeability of seats between Scheduled Caste and Scheduled Tribe candidates.

As per the Government of India's guidelines candidates belonging to SC/ST categories are to be given a concession of 5% of marks in the qualifying examination prescribed for admission. If seats reserved for them still remain unfilled, further relaxation should be given in order of merit among such candidates so that all the reserved seats may be filled. But as far as this University is concerned the candidates from SC/ST communities are considered for admission even if they possess a mere pass in the respective qualifying examinations prescribed for admission. Their cases are considered for admission according to the merit in the entrance test, among the Scheduled Caste/Scheduled Tribes candidates. The Scheduled Caste/Scheduled Tribe and Visually handicapped candidates are exempted from the payment of application fees for all the courses being offered in this University and also while applying for various posts.

Three percent of seats in each course are reserved for candidates from physically handicapped category. During the academic year 1996-97, Nine such students were admitted.

As per the guidelines of the University Grants Commission, a Standing Committee has been constituted to review the implementation of policies and programme for Scheduled Caste and Scheduled Tribes in Pondicherry University. Such a Committee has also been constituted in each of the affiliated institutions. The Standing Committee at the University level meets periodically every year.

The Deans of Schools and the Heads of Departments of this University and the Principals of the affiliated institutions were requested to follow strictly the guidelines of the Govt. of India and the UGC in respect of recruitment are also being followed in this University.
